*Eastern Virginia Medical School
The First Decade
We continue on our voyage of excitement, uncertainty, and discovery with
— A New Spirit!*

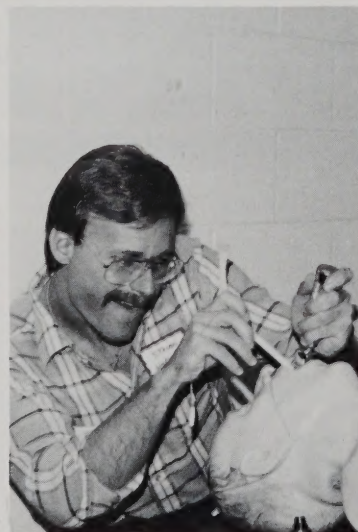

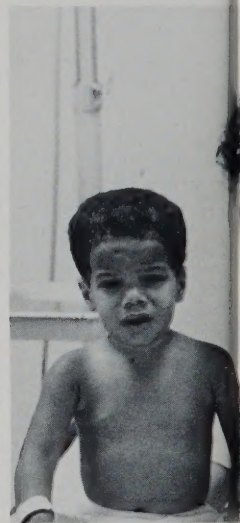

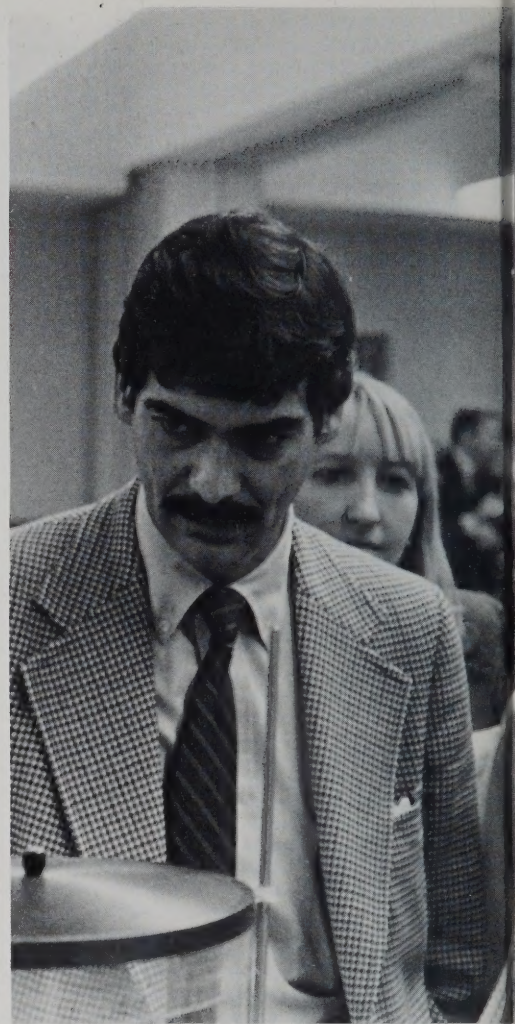

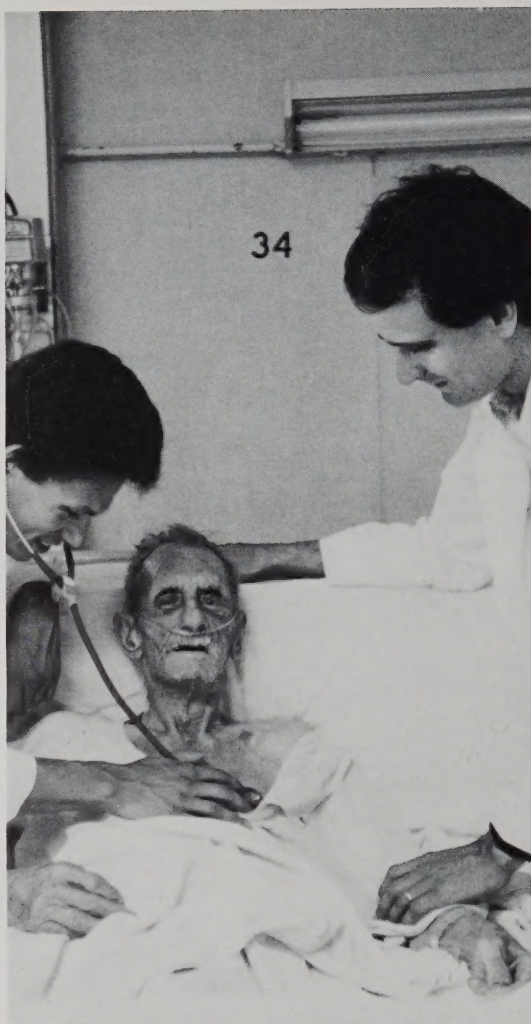

"Their vision and generosity made this beginning possible."

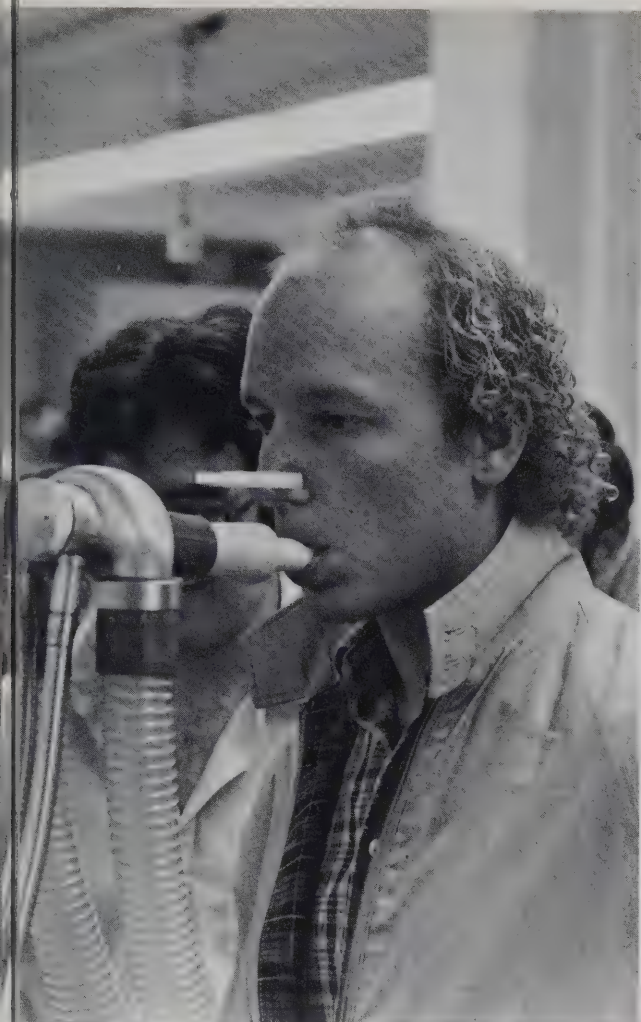

The symbol of Eastern Virginia Medical School depicts interlocking strands representing the essential relationships needed for an excellent regional academic health network. Patient care, learning, research, and a coherent regional health care and educational system that reflect the talent and resources needed to provide quality services. The intertwined loops also represent the many individual communities of Eastern Virginia which, working together, can achieve a degree of health care that none of them alone can attain. Finally, the symbol emphasizes the need for collaborative efforts among health care professionals and institutions — the Medical School, the Eastern Virginia Medical Authority, hospitals, colleges, and universities — if quality health care is to be achieved in Eastern Virginia.

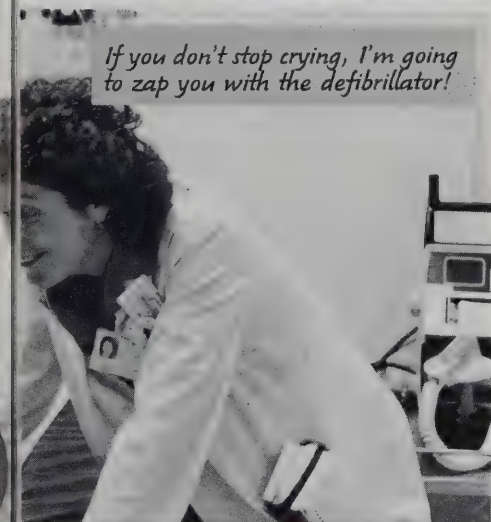

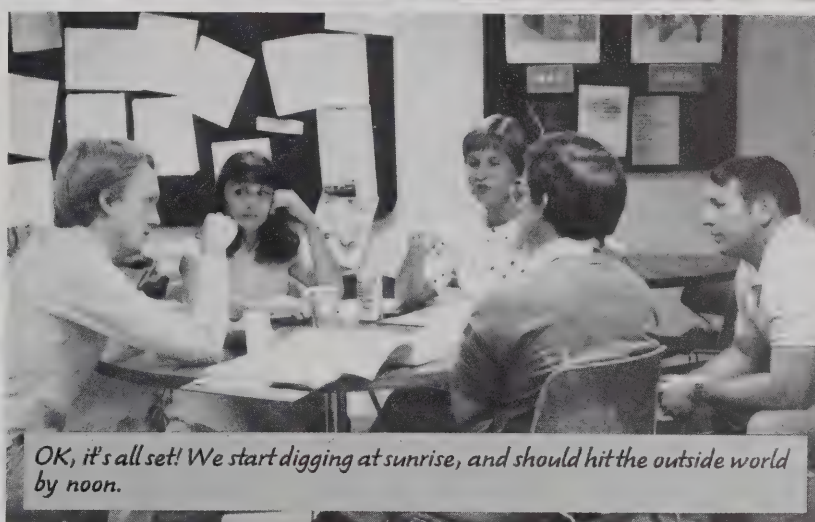

"This is my vow: To perfect my medical care and never to swerve from it so long as God grants me my office and to oppose all false medicine and teachings. Then, to love the sick, each and all of

Sorry Mayer, getting closer to the book won't help!

If you don't stop crying, I'm going to zap you with the defibrillator!

OK, it's all set! We start digging at sunrise, and should hit the outside world by noon.

them, more than if my own body were at stake. Not to judge anything superficially, but by symptoms, not to administer any medicine without

understanding, nor to collect any money without earning it . . . Not to guess, but to know."

— Paracelsus

Approximately thirty percent of students at EVMS call the Tidewater Area home; however, for the other 70%, the surroundings of Ghent provided for a new experience. Fortunately, the quaint stores on Colley Avenue, beautiful running routes along the Hague, movies at the Naro, and "Happy Hours" at the local bars facilitated the adjustment for most.

*One should never speak with
forked tongue.*

*"Baby Love," who ever
thought Diana Ross would
make it to Medical School!*

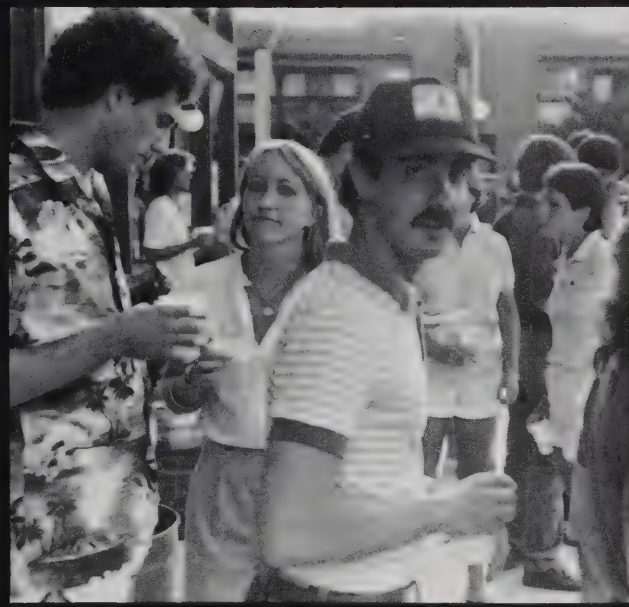

I try never to divulge my true feelings while examining my patients!

I wish those @#\$%&*1/2± ants would stop crawling underneath my clothes!

OFFICE OF THE DEAN

TELEPHONE (804) 446-5800

March 5, 1984

Dear Graduates of the Class of 1984:

It is with great pleasure and significant satisfaction that I have the opportunity to congratulate each of the members of the Class of 1984 on the completion of your undergraduate medical education. As you continue your program of life-long learning, it is my sincere hope that the basic education and the start that you have received at the Eastern Virginia Medical School will stand you in good stead and provide you with the basics to allow you to continue to grow into the field of medicine. You will learn, as have all of your predecessors, that medicine is a dynamic profession and the half-life of your knowledge will be measured in several years rather than several decades. It will require continued hard work and study on your part to maintain your current level of knowledge.

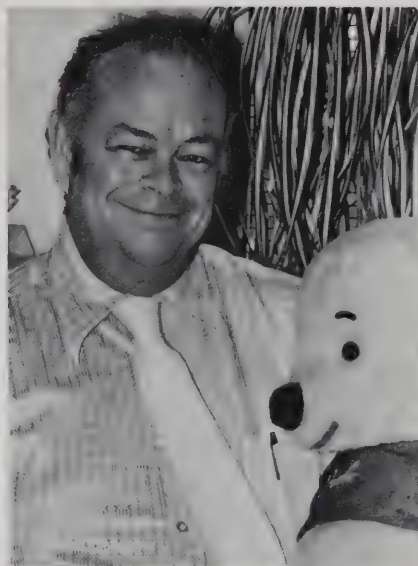

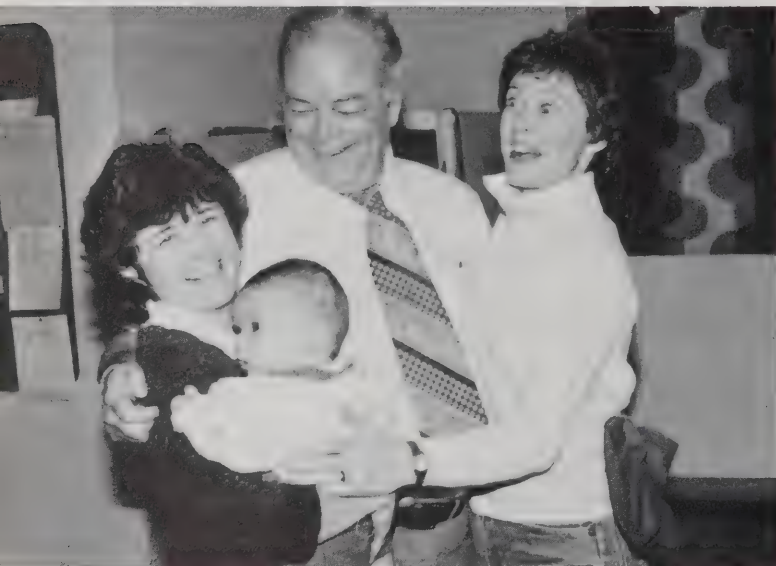

You do have the opportunity to enter into an exciting and dynamic world in which you will be looked upon as a contributor and thus your role will be significant. You should take the opportunity to make the greatest possible impact in your chosen field.

We, the members of the faculty and the administration at the Eastern Virginia Medical School are extremely proud of each of you. Please accept our congratulations for a job well done and wishes for an extremely bright future.

Sincerely yours,

James P. Baker

Sir William Osler Award For Excellence in Teaching

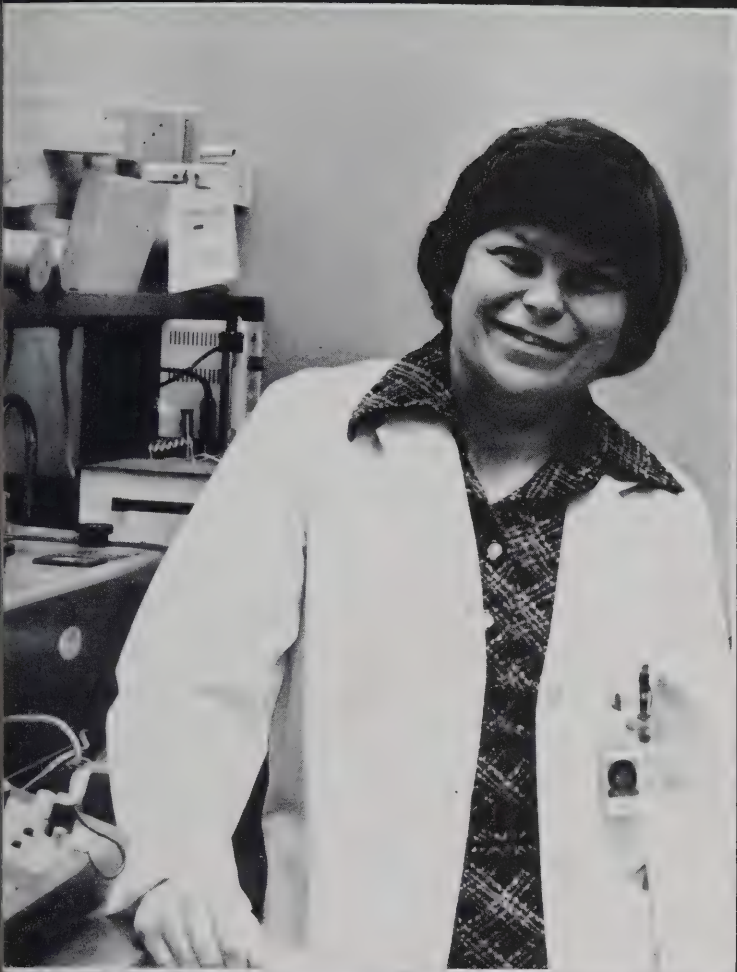

"I desire no other epitaph — no hurry about it, I may say — than the statement that I taught medical students in the wards, as I regard this as by far the most useful and important work I have been called upon to do."

Sir William Osler

Thomas Pellegrino, M.D.
Department of Neurology

Sir William Osler Award Outstanding Basic Scientist

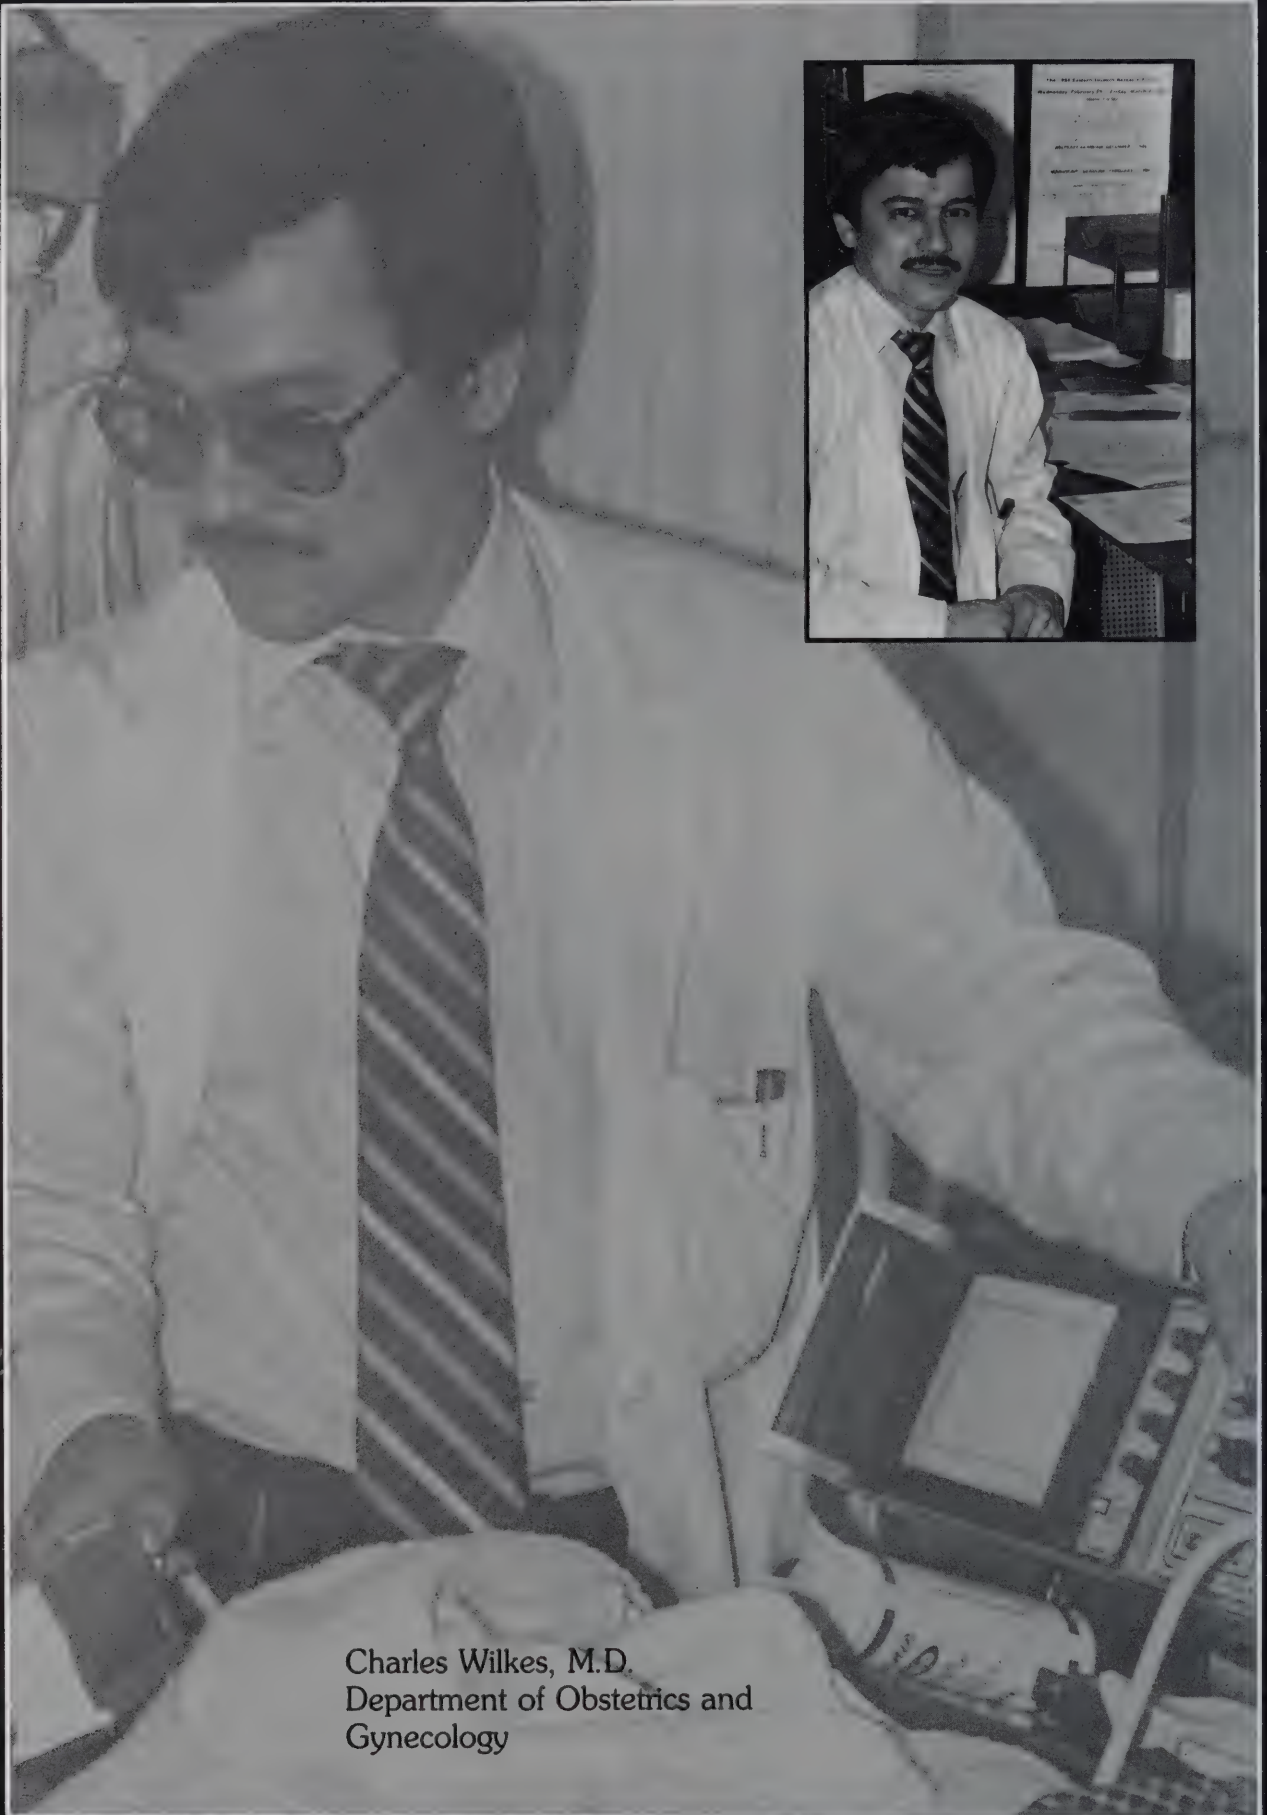

"The function of the teacher is to teach the current knowledge of the subject he professes — sifting, analyzing, assorting, laying down principles. To propagate: i.e., to multiply, facts on which to base principles — experimenting, searching, testing. The best that is known and taught in the world — nothing less can satisfy a teacher worthy of the name, and upon us of the medical faculties lies burden duty in this respect, since our Art, co-ordinate with human suffering, is cosmopolitan . . . "

Norfolk, VA
Brown University
Psychiatry
"I think, therefore
I am." — Rene Descartes

Joseph Thomas Ascue

Lord, make me an instrument of Thy peace;
Where there is hatred, let me sow love;
Where there is injury, pardon;
Where there is doubt, faith;
Where there is despair, hope;
Where there is darkness, light; and
Where there is sadness, joy.

Divine Master,
Grant that I may not so much seek to be
Consoled as to console;
To be understood as to understand;
To be loved as to love;
For it is in giving that we receive;
It is in pardoning that we are pardoned;
And it is in dying that we are born to
eternal life.

— Saint Francis of Assisi

Thank you Lord for this gift, and for the
friends and family who gave me the support
and encouragement to keep going.

Debra Sharon Banks

Loving Thanks to
my parents
who gave my sister
and me
the courage to dream
and the strength to
achieve

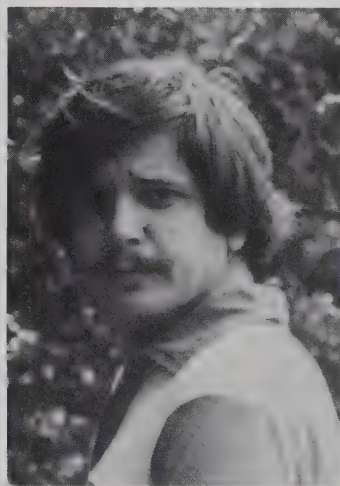

Donovan Balmaine Parkes

Thanks to my wonderful
parents, family, friends and Vicki
for all their encouragement,
support & help in making my
dreams come true. I could not
have done it without each of
you. Finally Special thanks to
God.

John William Parkinson, Jr.

Alma Mater: Old Dominion University

Interest: Anesthesiology, Intensive Care Medicine

Call it a moment's work (and such it seems)

This tale's a fragment from the life of dreams;

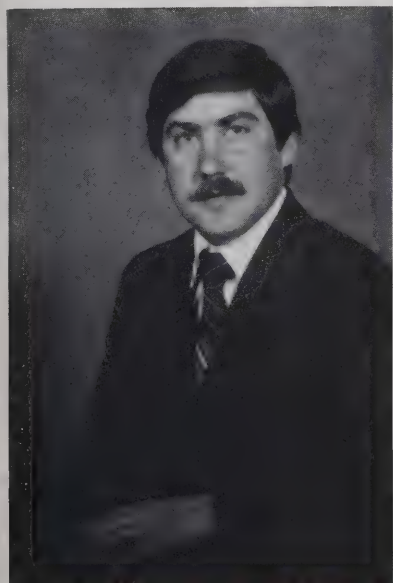

But say that years matured the silent strife,

And 'tis a record from the dream of life.

Samuel Taylor Coleridge

To my family and friends, thanks. Especially my mother, whose unselfish love and giving is limitless. To my father, whom I wish were here, I dedicate this effort.

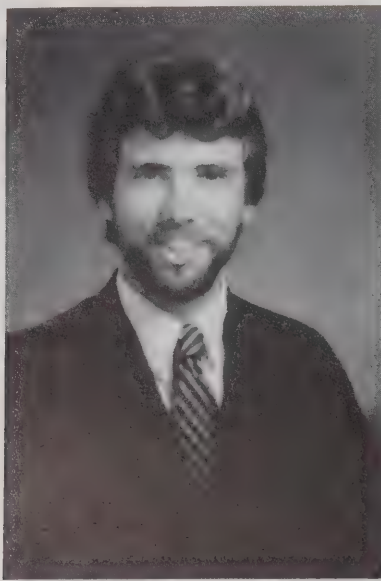

Stephen Kinneer Matteson

Undergraduate: Washington & Lee Univ. '75

Graduate: Medical College of Virginia School of Pharmacy '78

Interest: Ob-Gyn

David Miller Persson

Alma Mater: Washington & Lee University
Interest: Internal Medicine

They shall mount up with wings like eagles,
they shall run and not be weary, they shall walk
and not faint.

Isaiah 40:31

Thanks to my family, friends
and especially Irene for helping
to make a dream come true.

E. Rolland Phillips

Thanks to my loving bride, supportive family, &
most of all the good Lord who made it all possible.

Susan Harkaby Hollack

I know a bank where the wild thyme blows, where oxslips and the nodding violet grows ...
Shakespeare — A Midsummer Night's Dream

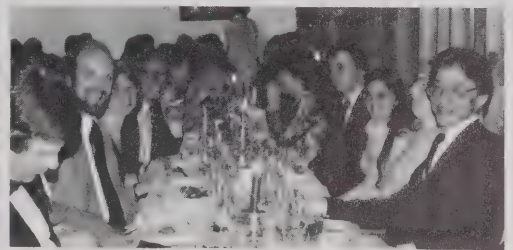

With thanks to everyone who steadfastly believed in me and in the possibility of this dream, but most especially to my family for their enduring love & support. . . To my non-medical and Swiss friends for keeping me a part of the world outside Norfolk General. . . To Jim and Sarah and Rick, to Dr. DeRosiers and all the faculty and residents who patiently answered one million questions, to Nelson, Loren and all who braved freezing dawns in search of planets lined-up and yellow-crowned night herons!

Smith College
Pediatrics/Medicine

Elizabeth Jane Nottingham Rogers

Lauri Jane Romanzi

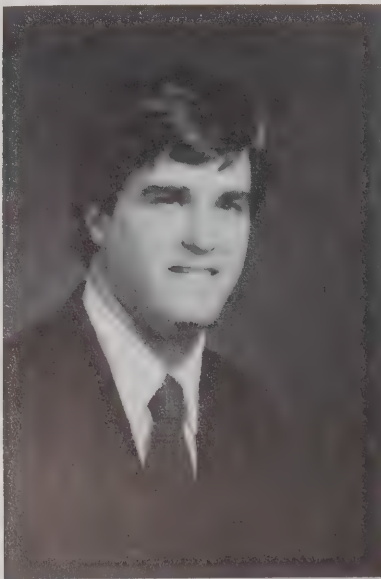

Alma Mater: Ohio State University
 Interest: Obstetrics and Gynecology

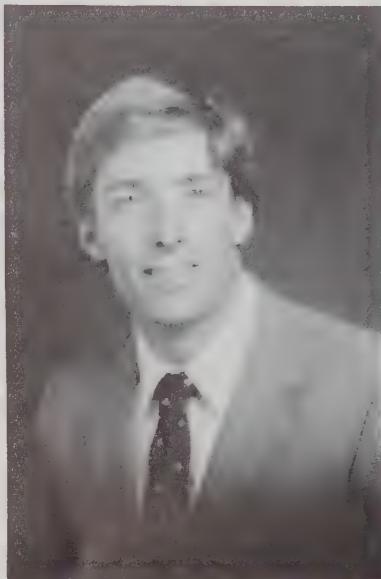

"Our trouble is not our womanhood, but the artificial trammels of custom under false conditions. We are, as a sex, infinitely superior to men, and if we were free and developed, healthy in body and mind, as we should be under natural conditions, our motherhood would be our glory. That function gives women such wisdom and power as no male ever can possess. . ."

Elizabeth Cady Stanton (1890)

David William Romness

To my family and friends without whose support this would not have been possible.

Daniel Brian Rukstalis

Thank you to my family for the support, thank you to my friends for the spice and variety, and thank you very much, Denice for teaching me so much about myself.

There is no such thing as a problem without a gift for you in its hands.

You seek problems because you need their gifts.

"ENOUGH!!!"

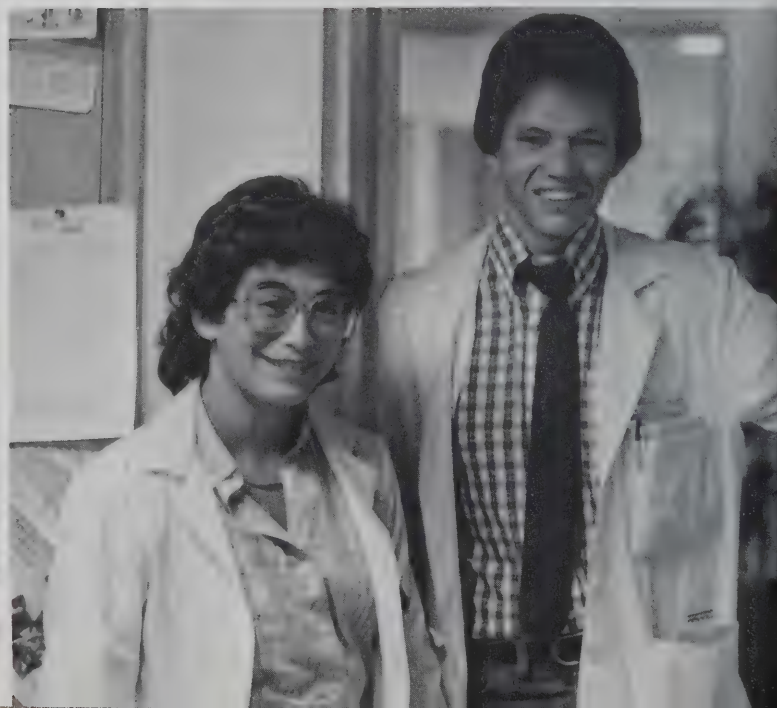

George Goode

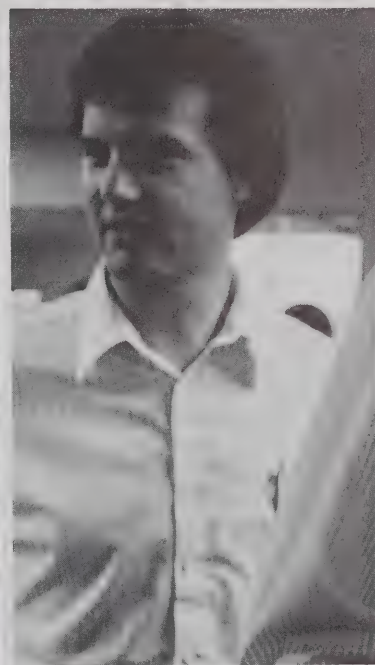

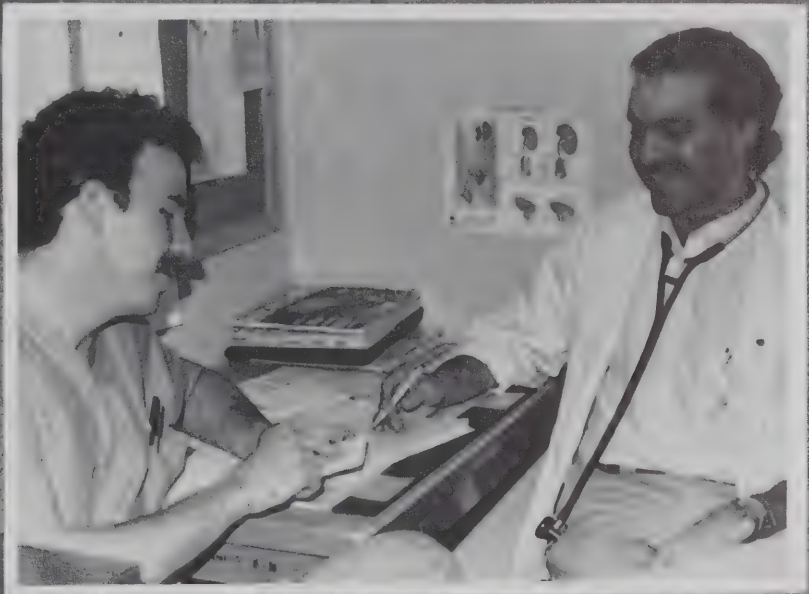

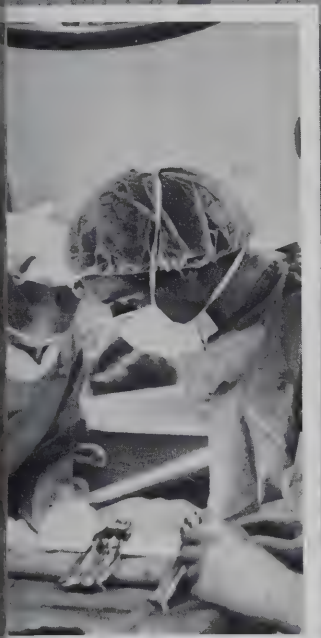

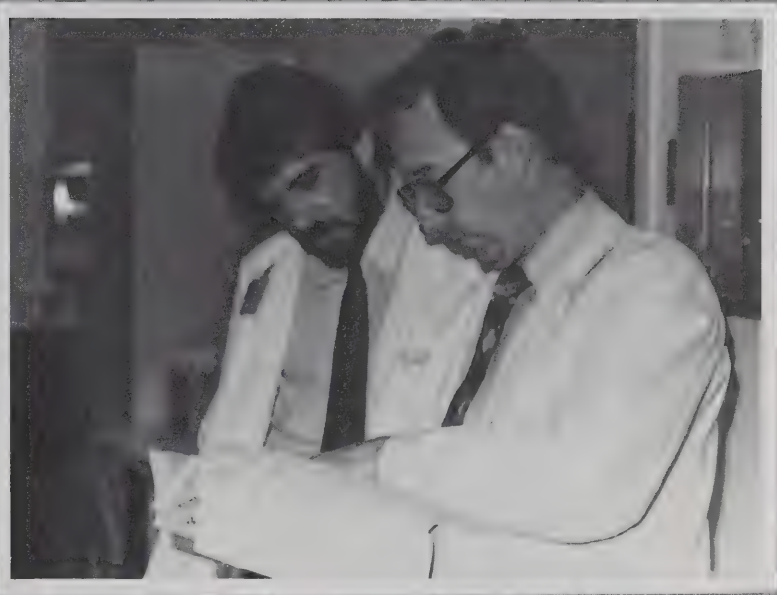

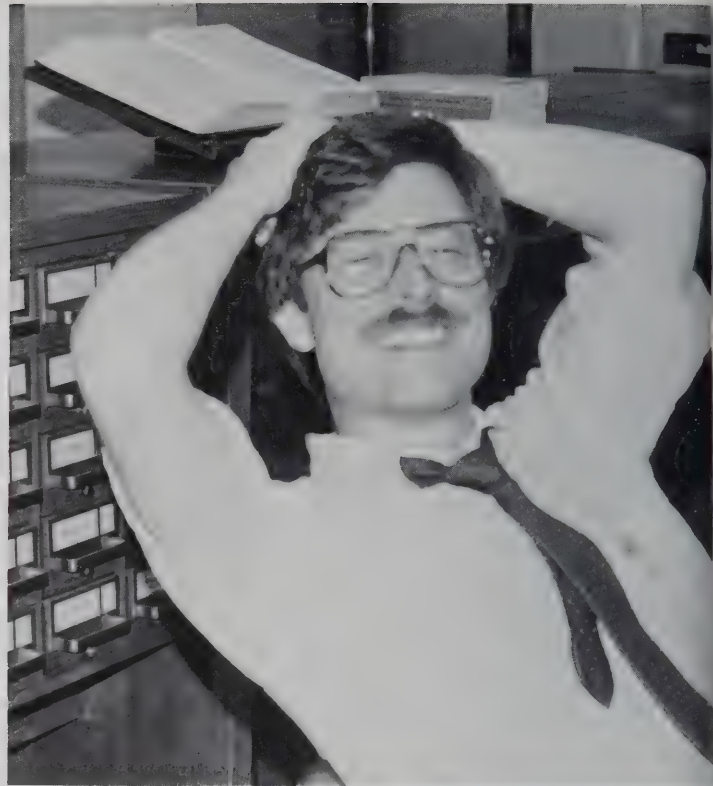

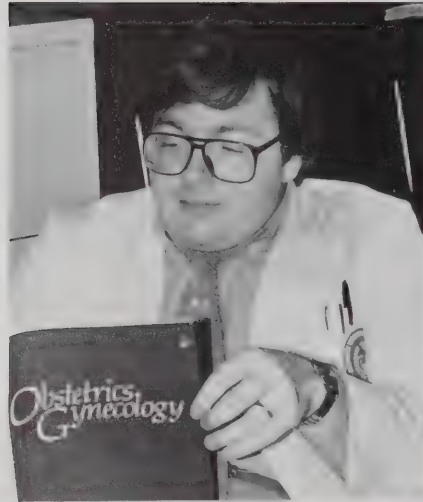

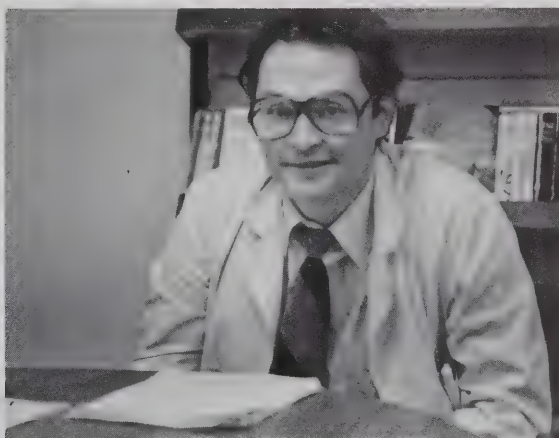

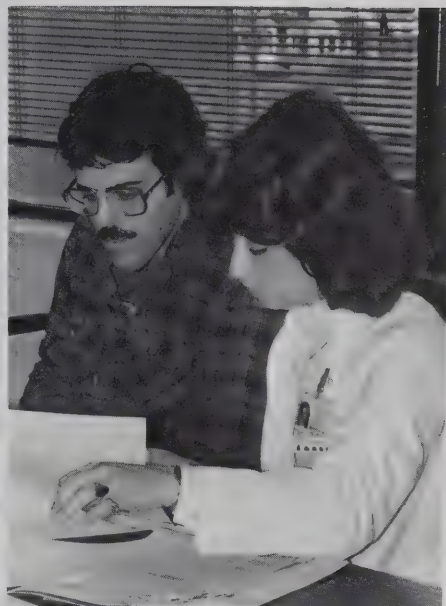

Hard at WORK? . . .

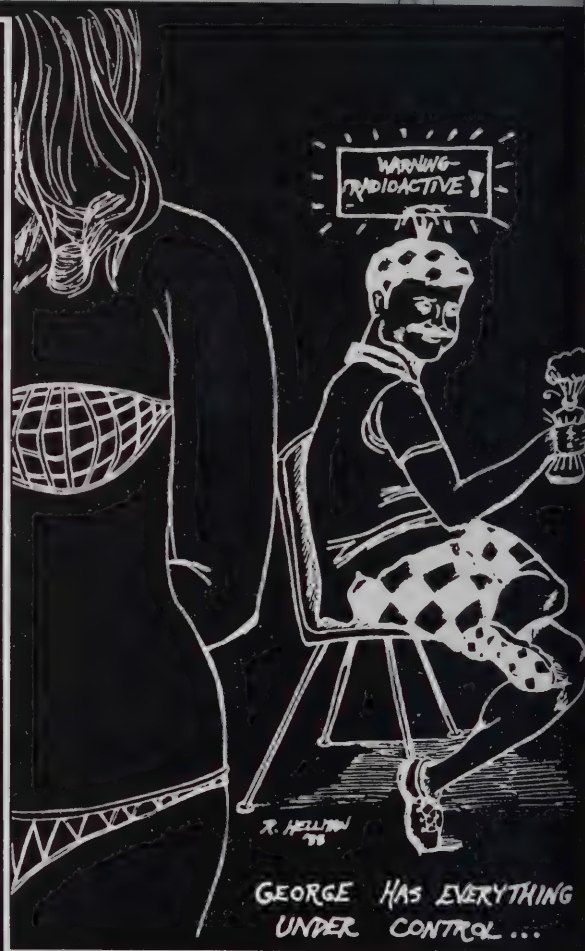

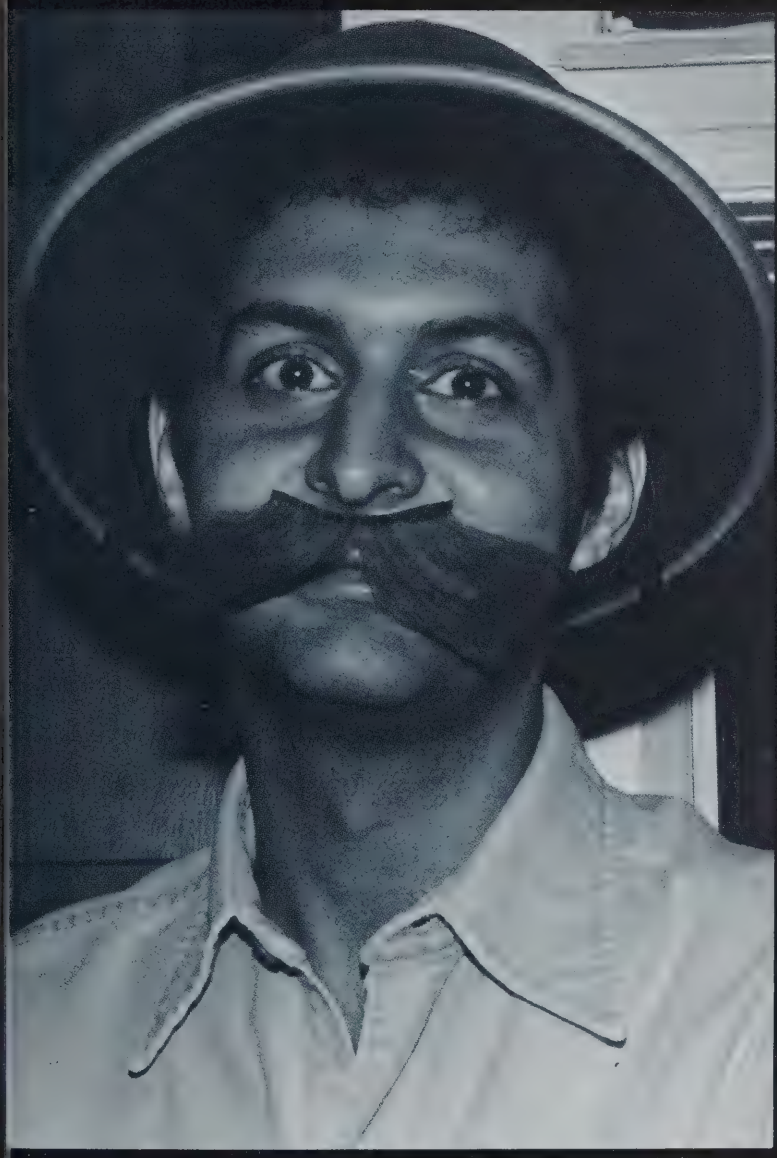

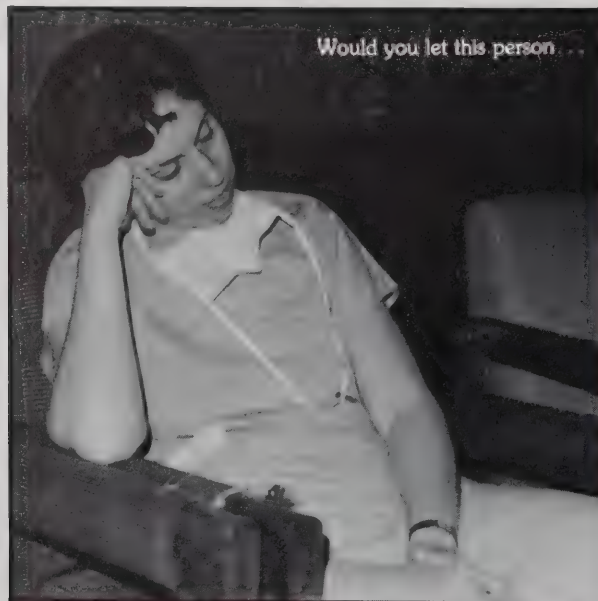

and hard at PLAY!

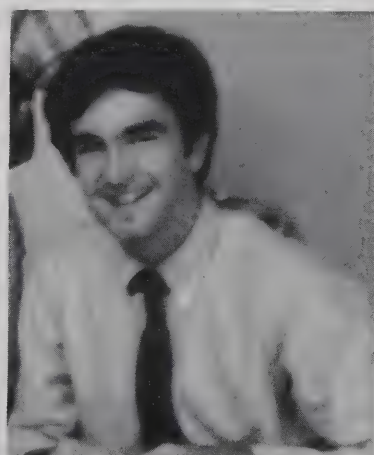

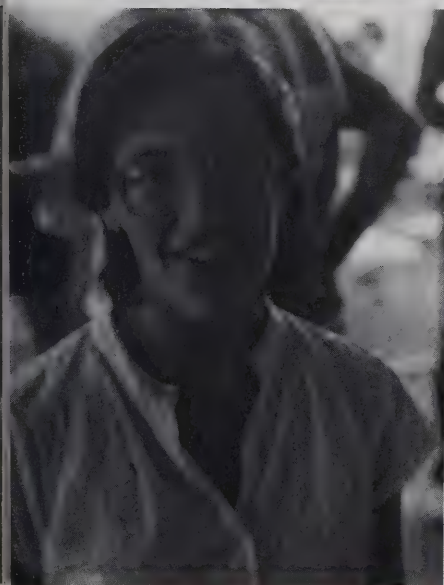

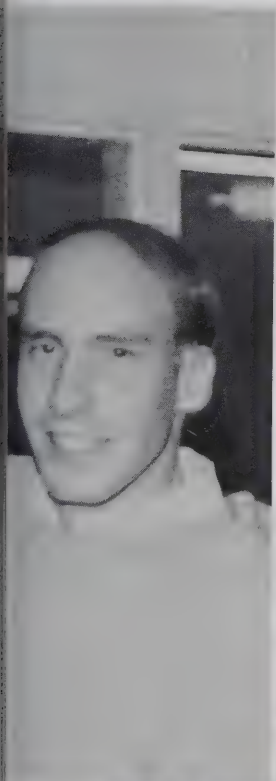

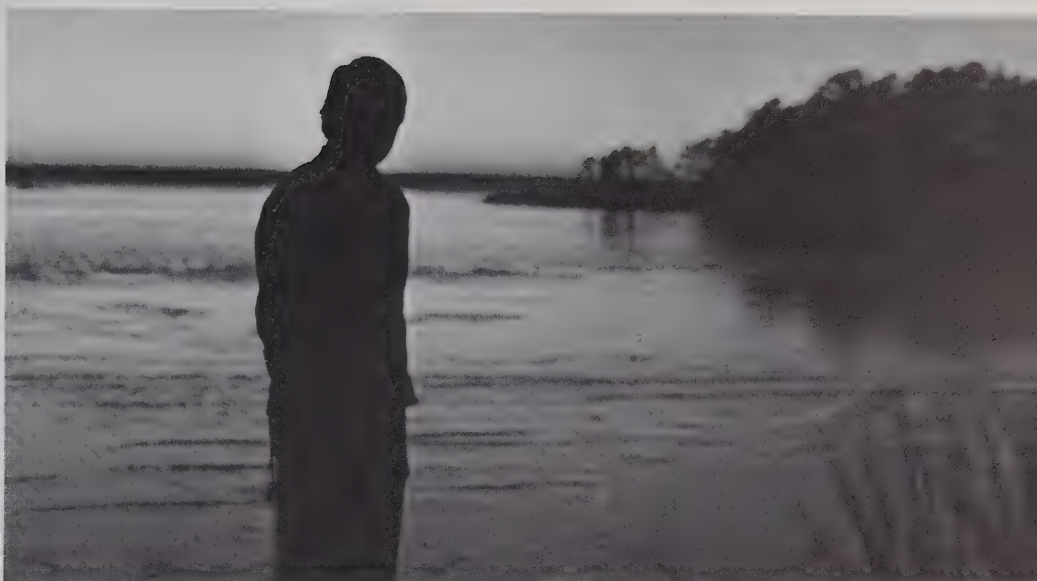

Would you let this person...

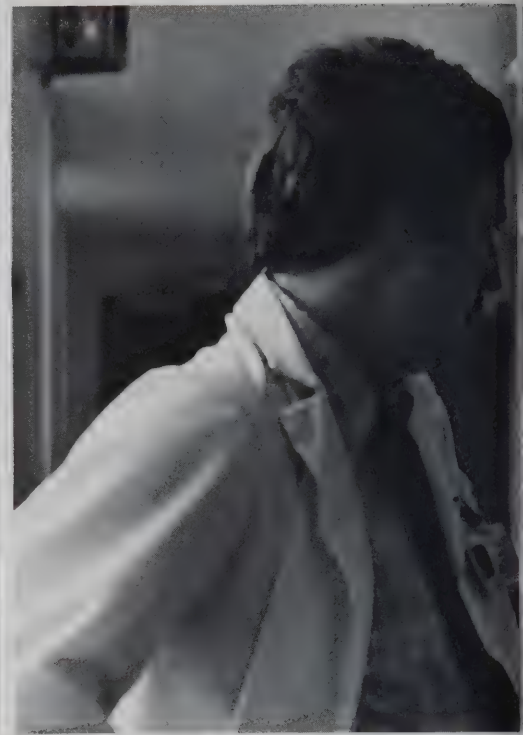

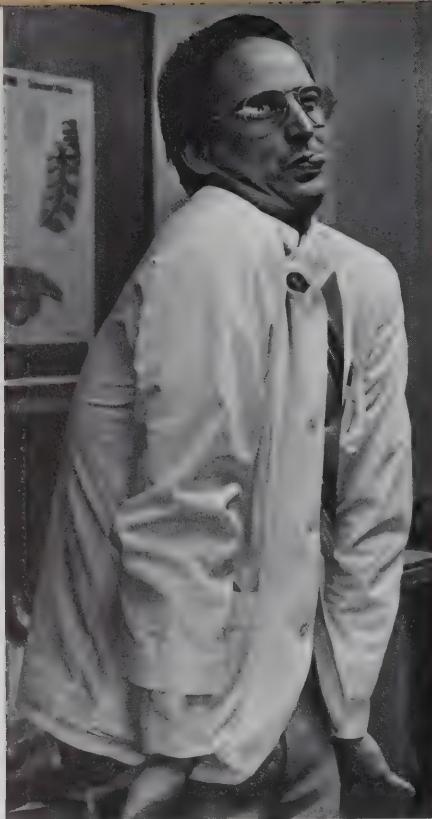

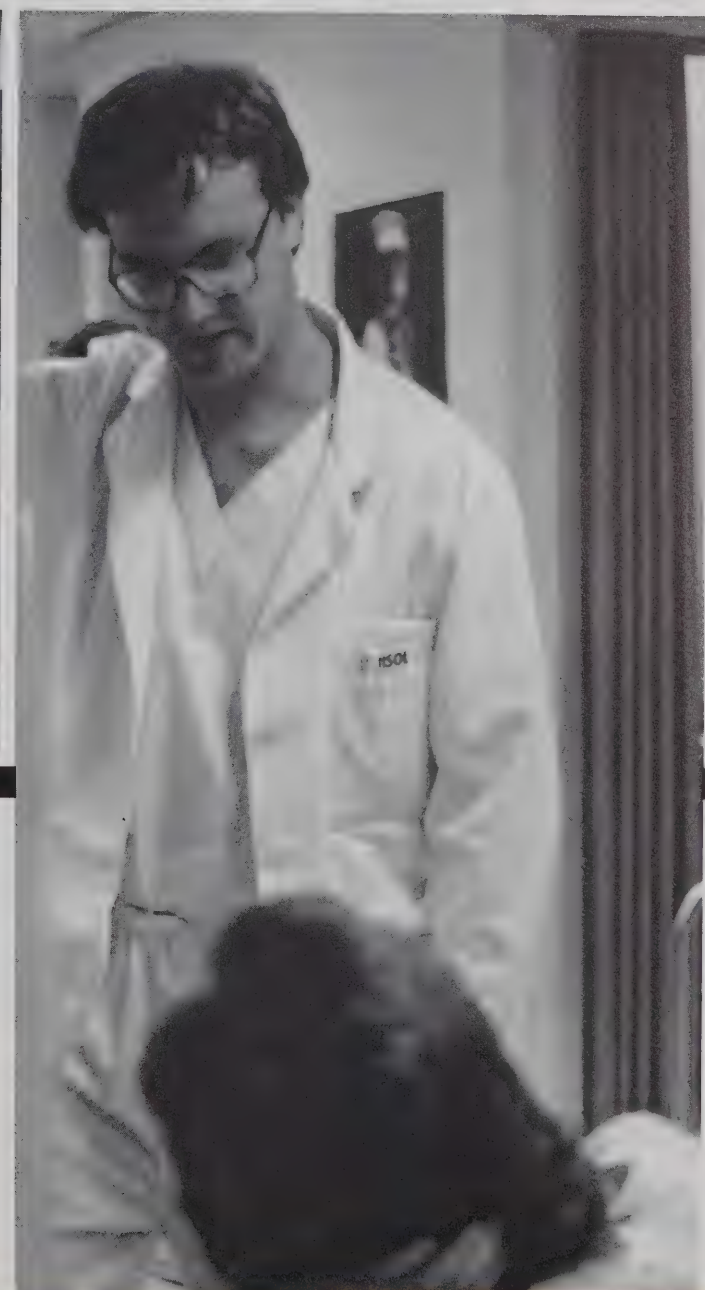

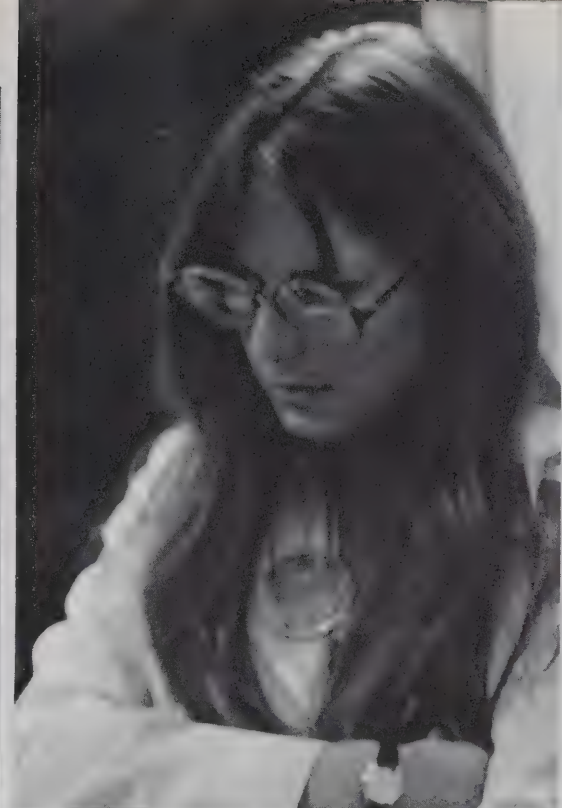

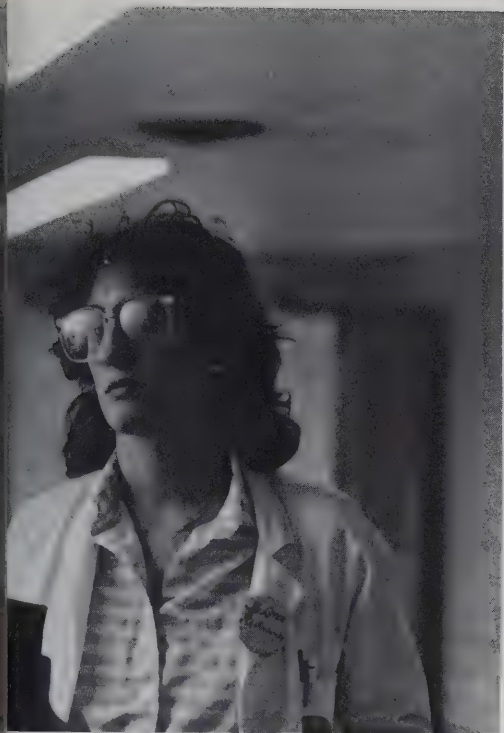

operate on you?

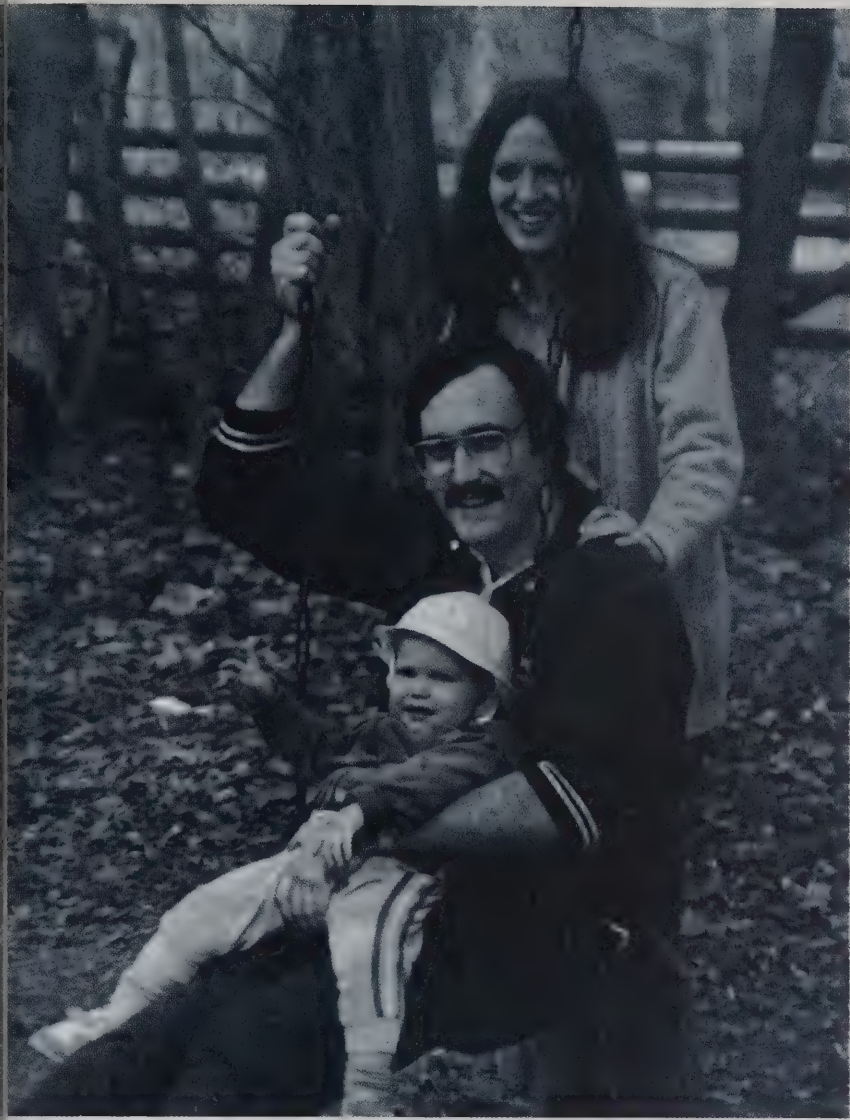

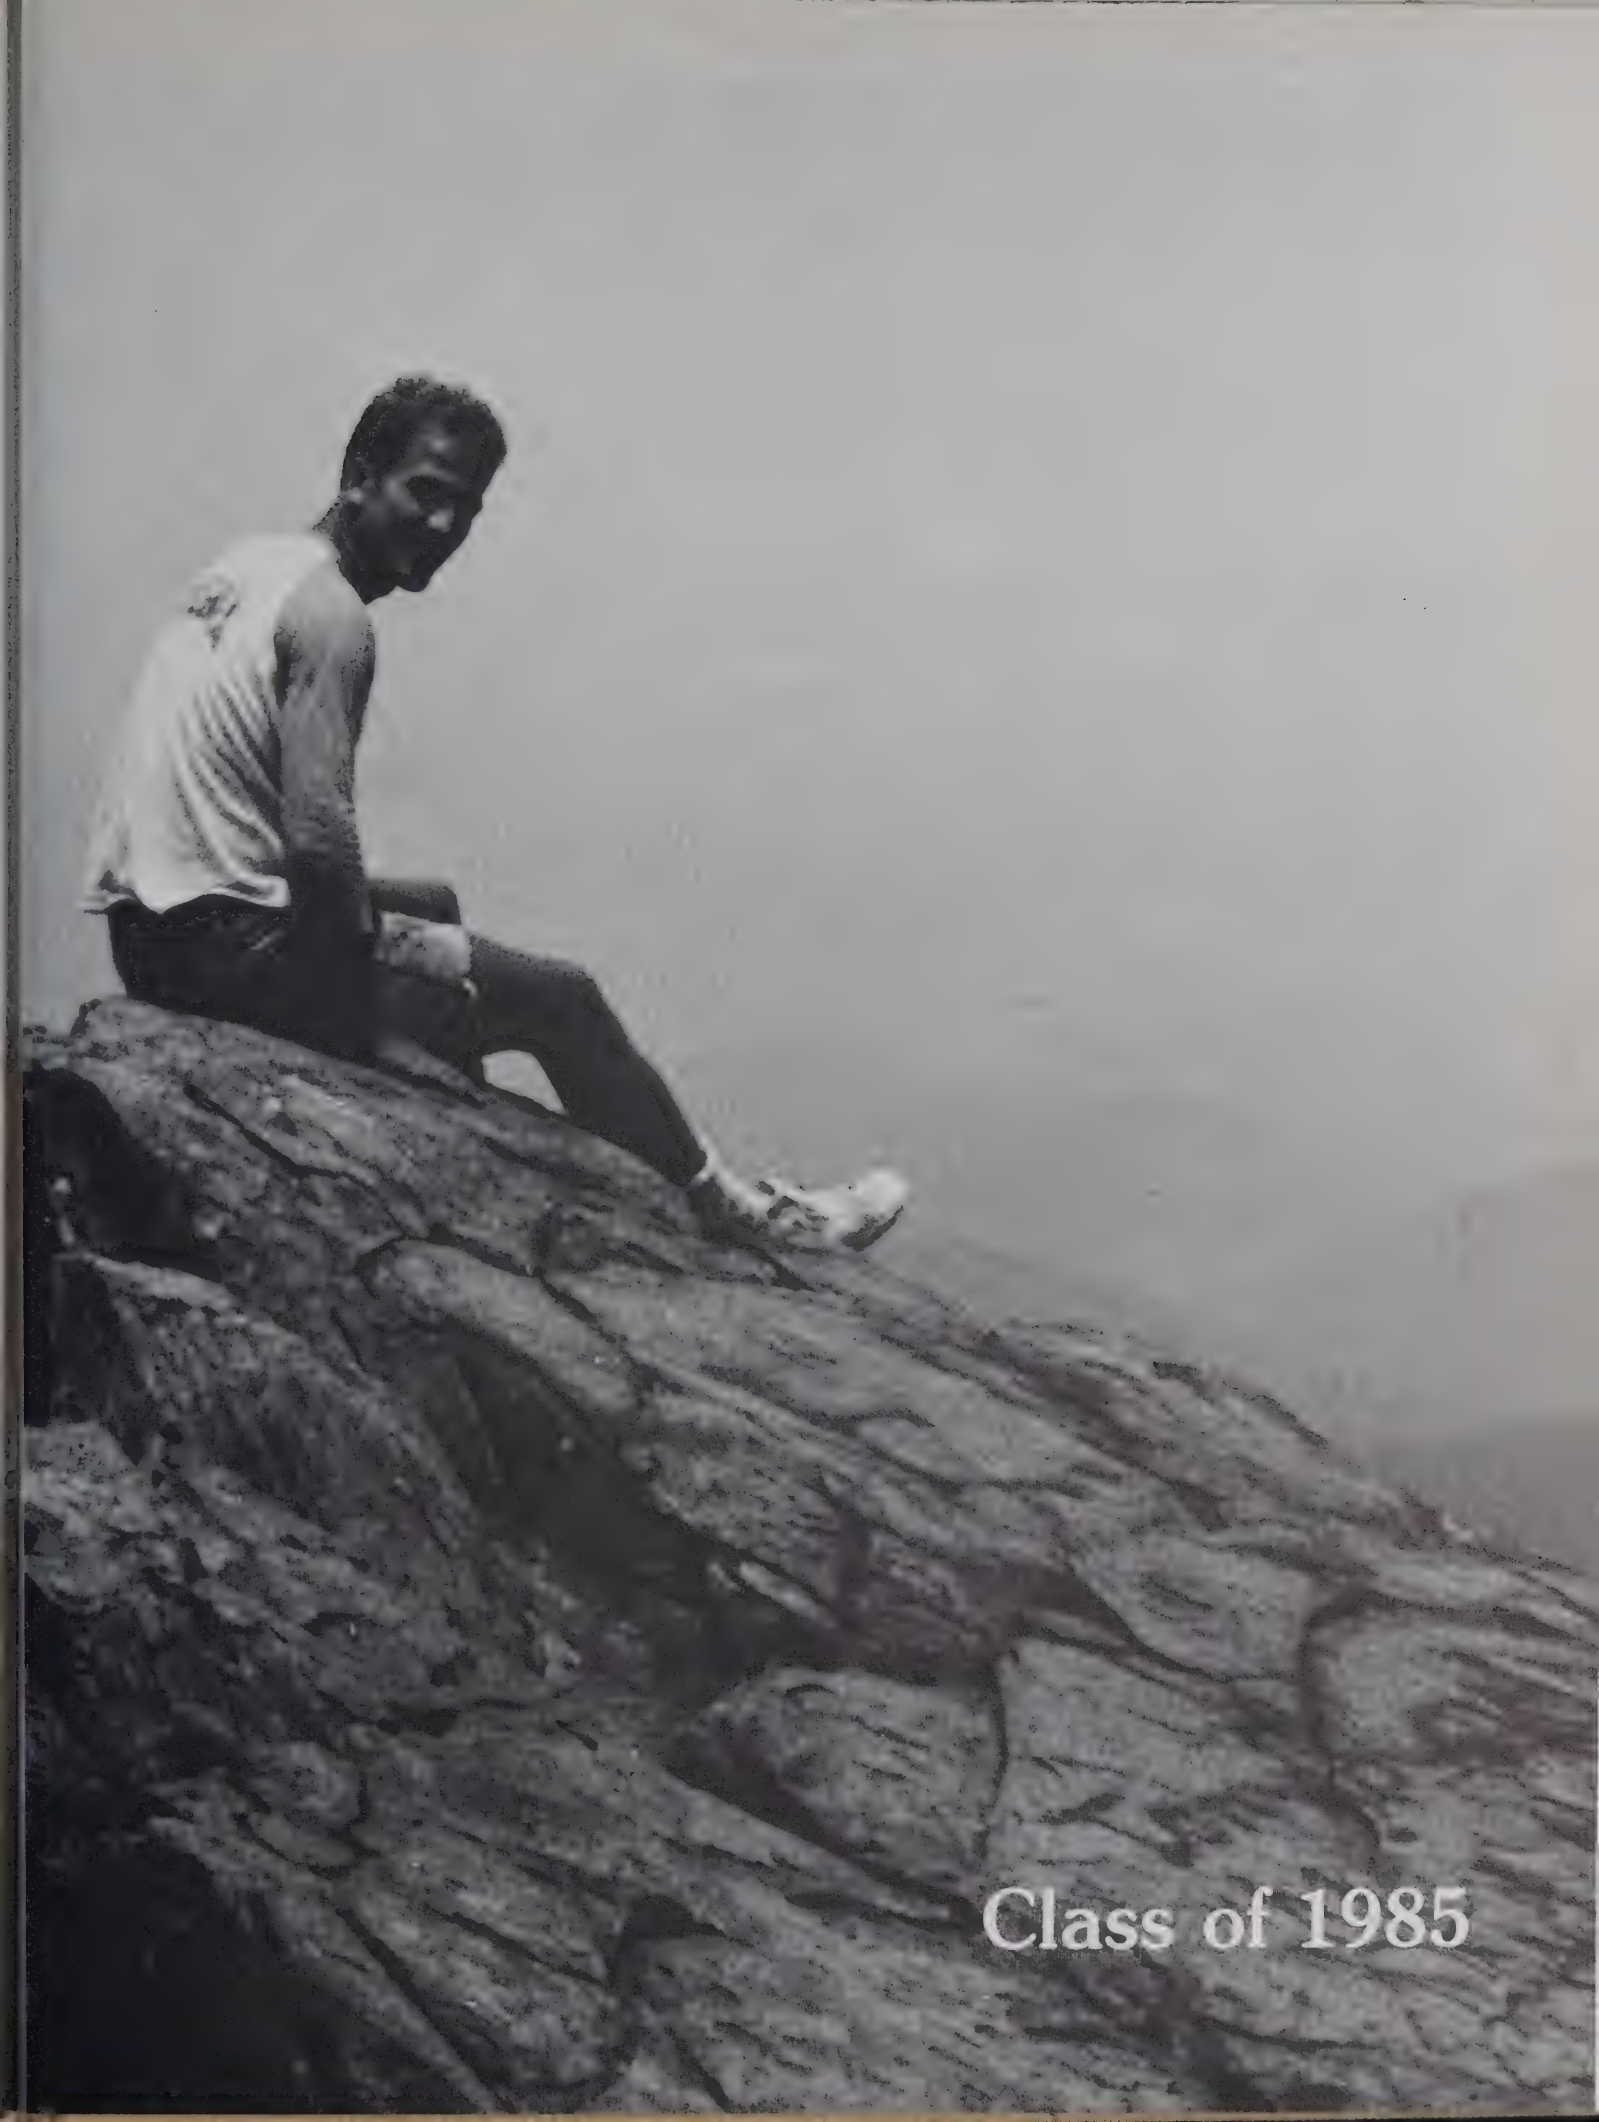

The most essential part of a student's instruction is obtained, as I believe, not in the lecture room, but at the bedside. Nothing seen there is lost; the rhythms of disease are learned best by frequent repetition; its unforeseen occurrences stamp themselves indelibly in the memory.

Biomedical Sciences Graduate Program EVMS/ODU

The Departments of Biological and Chemical Sciences at Old Dominion University and the basic science departments of Eastern Virginia Medical School jointly offer course work and research opportunities leading to the Ph.D. in biomedical sciences. The program of study leading to the Ph.D. is interdisciplinary, providing a breadth of knowledge in the basic biomedical sciences. The student uses this breadth to study specific biomedical problems in depth in advanced course work and research. The graduate is a scientist who is trained to approach a biomedical project with an interdisciplinary philosophy and in-depth knowledge.

Art Therapy

Cyndi Wolf, M.A., M.S.A.T.R.
Diane Tumblin, M.S.A.T.R.

MASTER OF SCIENCE IN ART THERAPY

By eliciting artwork from a patient, the art therapist utilizes the individual's creative potential for discovery and investigation of conflict area derivatives within his psychic structure. As a part of a team, the interdisciplinary treatment team, the therapist contributes data useful in the team's development of a planned diagnostic and therapeutic approach. By combining didactic work in psychology and therapy theory along with clinical practicums, the two year program leads to a Masters of Science degree.

Tracy Sprinkle, Beth Holt, Lynne Covington, Cyndi Wolf, Director

“Without this playing with fantasy no creative work has ever yet come to birth. The debt we owe to the play of imagination is incalculable.”
— Carl Gustav Jung (1885-1961)

Doing . . .

What We Do Best!

Women in Medicine/AMWA

Girls are people
Who are interested in the facts of
life

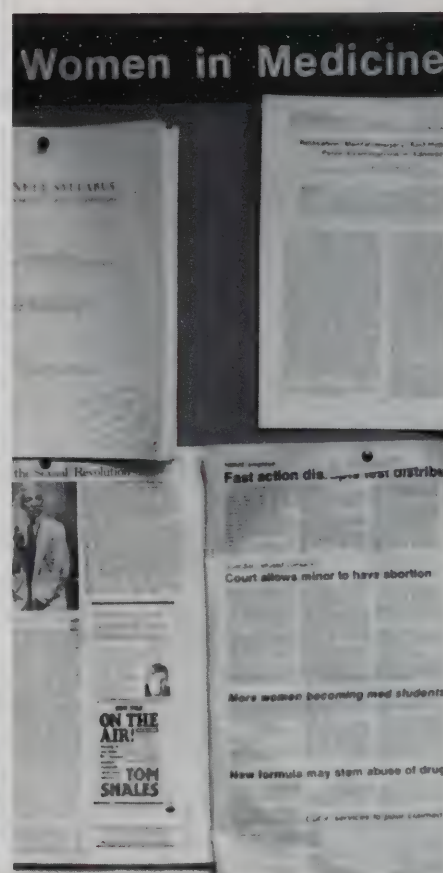

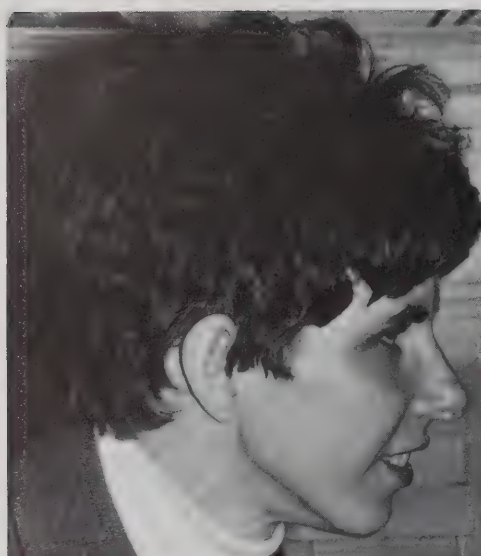

They want to know why
They want to know what
They want to know where

They want to know how they were
born

And how they will die...

Linda Lee Winters (age 8),
"Girls and Boys" 1971

We especially want to thank
Millicent Brown for her political and
personal support, both greatly
appreciated and sorely missed.

Women in Medicine was formed in 1981 to provide a discussion/resource group for students, faculty, physicians and other health professionals. We have furnished the opportunity for investigation and discussion of a wide range of topics including How to Survive (clinics, electives, residency application), Self Defense, Birthing Alternatives and Dual Career Marriages. The student branch of the American Medical Women's Association was chartered in 1983 at EVMS. Still in its infancy, the group looks forward to interacting with practicing AMWA members in the Tidewater Area.

Missing from picture: Mary Graham, Cathy Tugman, Laura Morris, M.D., Becky Haley, Devasmita Choudhury, Arindam Choudhury

The Student National Medical Association

The EVMS Chapter SNMA was organized through the efforts of the Area Health Education Center's Minority Affairs program in November, 1980. Since that time, the organization has sponsored conferences on the concerns of minority medical students, lectured at local Black colleges, sponsored the administration of a pre-MCAT type exam, and had sponsored a National Boards Part I Workshop. In honor of Black History Week in February this year, the students graciously hosted a "Candle-light Poets".

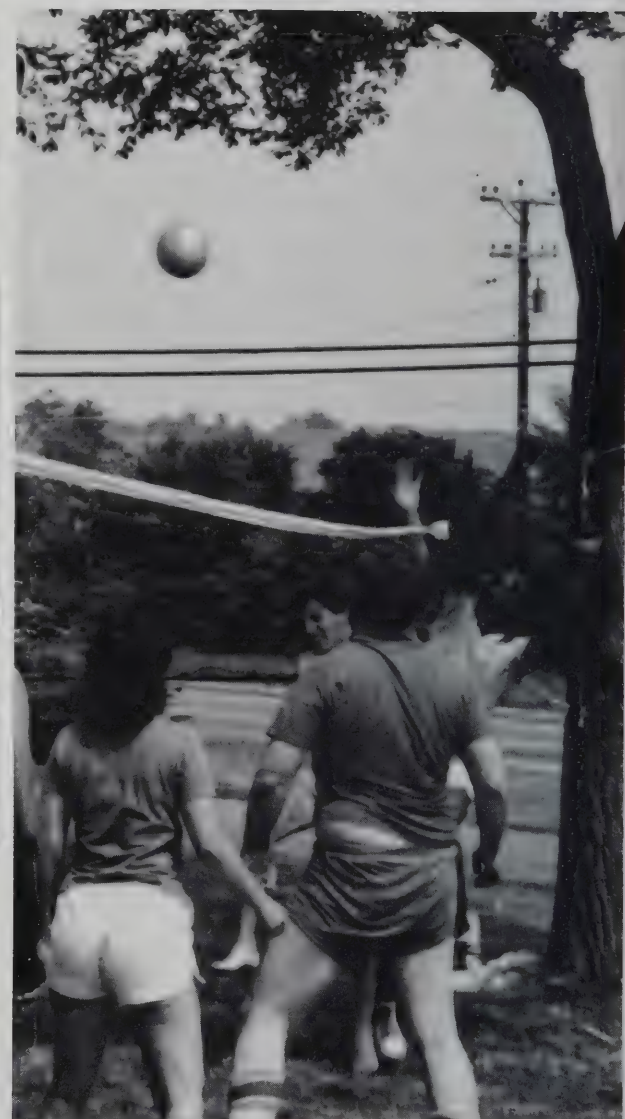

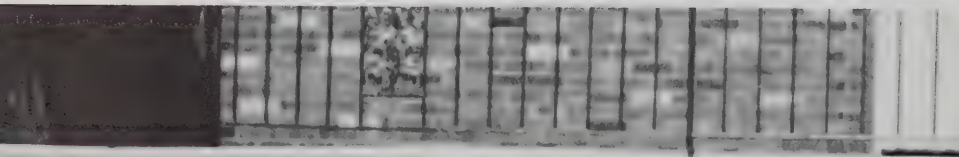

Summer Retreat Staunton, Va.

The traditional EVMS summer retreat, sponsored by the Human Values in Medicine Program, is the entering student's first impression of EVMS. The weekend before classes, the first year students are introduced to the EVMS community "at ease" through discussion groups, afternoon athletic activities (egg tosses, watermelon relay races), special interest groups (massage, med school coping techniques, early morning hiking), and massive doses of Hug Therapy — courtesy of Dr. Donnie Self.

New students and their families meet the upper classmen and faculty and, most importantly, form friendships early with their classmates. With fond memories of Dr. McCombs and Mary Lu Parks doing the Rock Lobster to the sounds of KLIK, they begin classes. And somehow medical school seems less intimidating.

Family Practice Interest Group

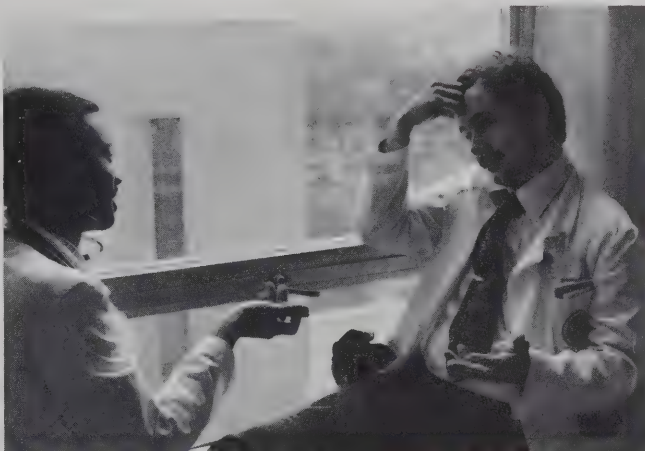

1983-1984 FPIG Officers

Dr. Berger talks with students about Family Medicine

The EVMS Family Practice Interest Group, with Mary Graham as Chairperson, had an active year that began with a welcoming picnic for the Classes of '86 and '87, and continued with monthly lecture-discussions on such topics as "the Nuts and Bolts of Applying to a Family Practice Residency," and "Sportsmedicine and the Family Physician." Fun activities, such as a cruise on the *Carrie B*, were also sponsored. The group started a library file on Family Practice Residencies, and witnessed the birth of its newsletter, "The Beeper." The Department of Family Medicine and AHEC help support the attendance of five EVMS students at the National conference of Student Members of the American Academy of Family Physicians in Kansas City, a record number. Overall, it was a great year for the group, which continued to grow and presently has the highest percentage of students who are members of any Virginia medical school.

The Community Action Committee continued to organize and sponsor EVMS students participation in off-campus community oriented activities. The CAC was supported in its work by the Eastern Virginia AHEC program, and the EVMS administration. Projects this year included the monthly Crestwood Clinic, in a underserved area of Chesapeake; weekly student trips to work with physicians and nurses providing health care to migrant workers on Virginia's Eastern Shore; the annual March of Dimes Superwalk; blood pressure screenings; numerous health screenings and high school physicals; and the annual CAC Xmas Drive for needy families.

Dr. Graham and students after a busy night at the Crestwood Clinic.

The Community Action Committee

Hague Regatta

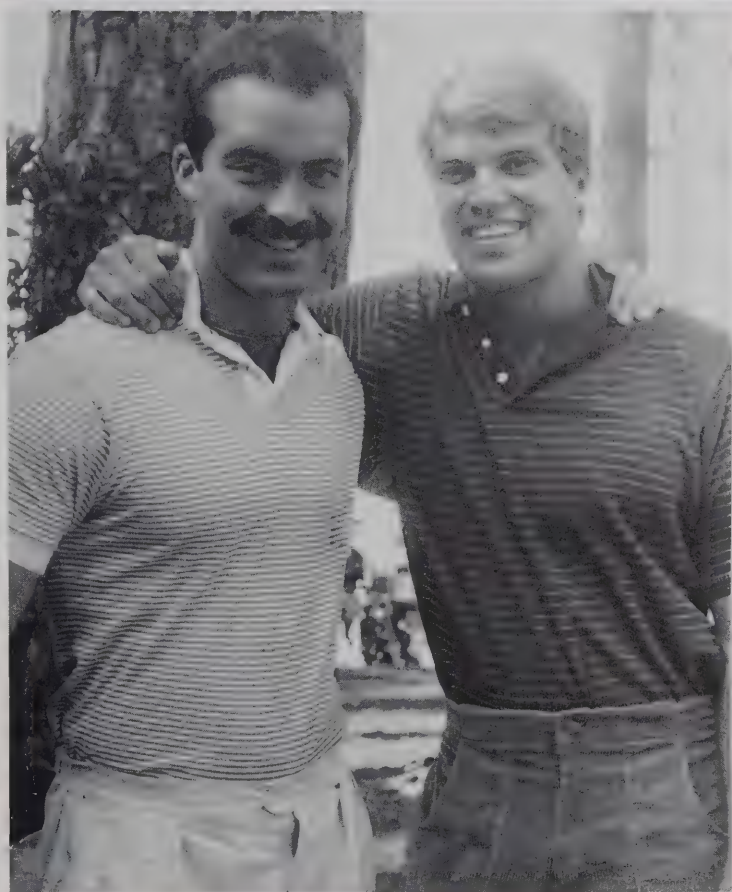

Casting all work aside, the EVMS students plunged into the sea on Linkhorn Bay at the home of Dr. William D. Mayer to celebrate the Seventh Annual "Hague" Regatta.

Formerly at the Hague, the Regatta was moved to Linkhorn Bay because of Public Health restrictions. Each year it is sponsored by the Human Values in Medicine program and the Eastern Virginia Medical School Women. The highlight each year is the raft races, but for those not lured to the sea, there is a "fun run", volleyball, and tug-of-war.

This year's Hague Regatta Commodore was Patricia B. Williams, and she oversaw all seafaring events. After many mouthfulls of sea water, top nautical honors went to the Class of '86 and '87 for the mixed division, and for the second year in a row to the Class of '85 for the Men's Division. For the land-lubbers, there was a 2.2 mile "fun run" captured for the second year in a row by the swift Reggie Robinson. The day ended with everyone coming to shore and enjoying beer -n- hotdogs while trophies were presented.

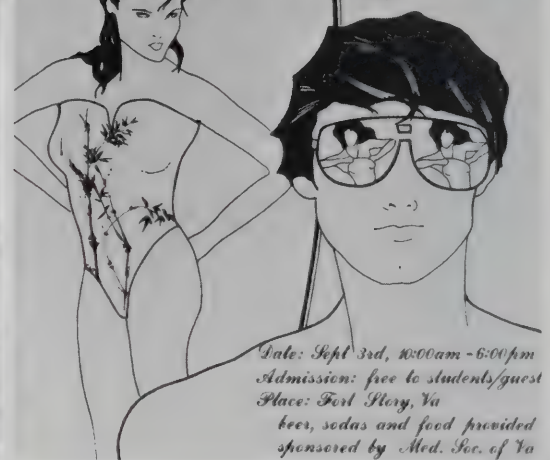

A Great Trio — Sun, Sand, & Sounds

Labor Day Weekend, Fort Story, Virginia Beach
The sky cleared from threatening early morning clouds and the beach invited all sun-worshippers (aka med students). Sponsored by the Medical Society of Virginia, the idea of a Tri-Med School party was great — a chance to catch up with college friends at U. Va. and MCV, exchange ideas and experiences, and build up some old-fashioned rivalries. Unfortunately, only a few adventurers from Charlottesville and Richmond enjoyed that part of the beach, entertained by the tunes of the student group, Roger Ramjet. Their rock-and-roll finally coaxed lazy sunbathers to their feet, as the music combined with plenty of beer and volleyball for a great start to the holiday weekend.

Va Tri-Med School Beach Party
featuring the amazing
Roger Ramjet

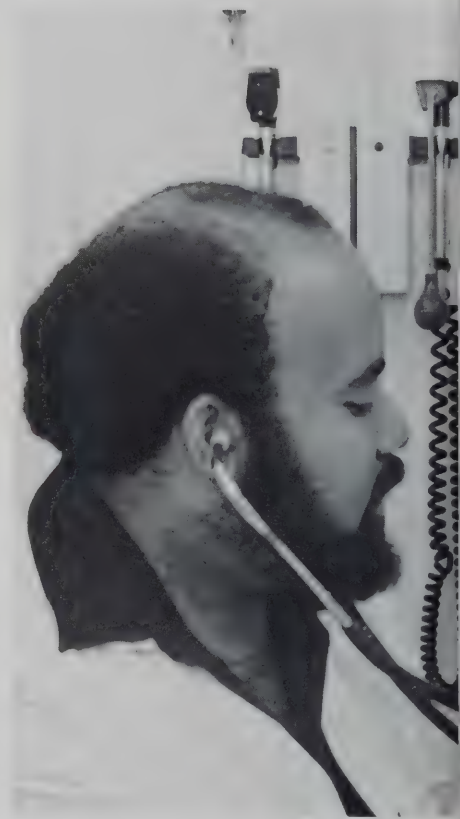

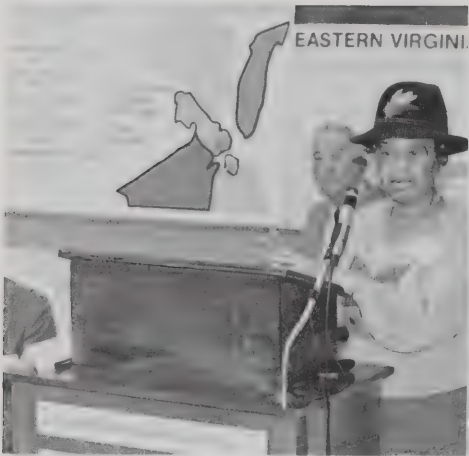

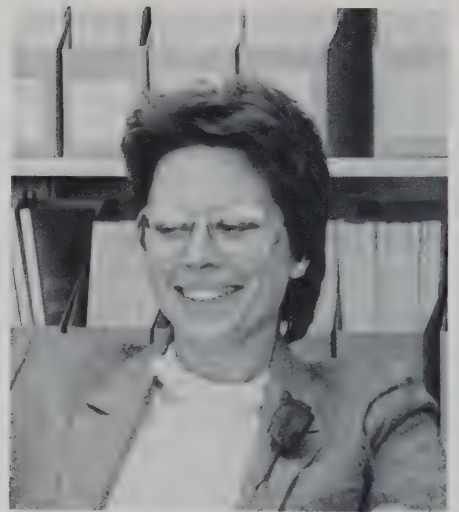

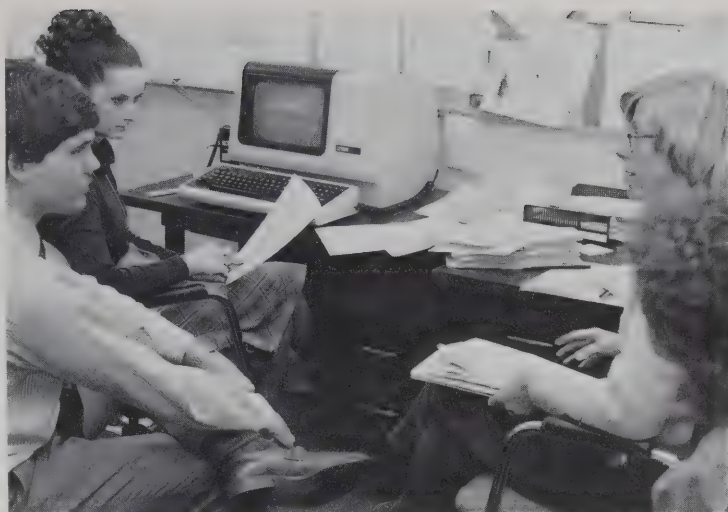

Significant Others Club

Significant Others is an organization designed to create goodwill among its members as well as meet the needs of those who are closely involved with the medical students of EVMS.

In its efforts to promote the good life at EVMS the Significant Others has sponsored bake sales, a pre-Christmas shopping trip to the Williamsburg Pottery Factory, and a most welcome social event, the Holiday Ball. Significant Others is a support group not only for spouses but for the EVMS community.

Area Health Education Centers

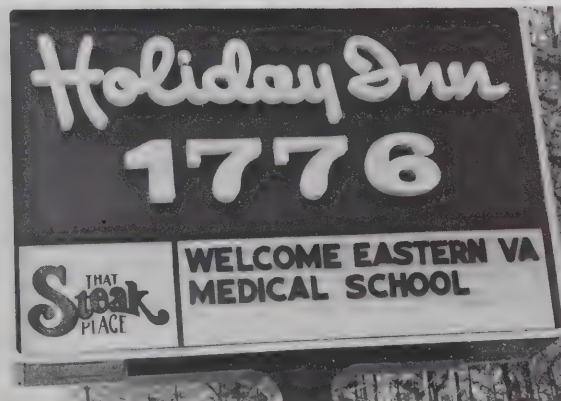

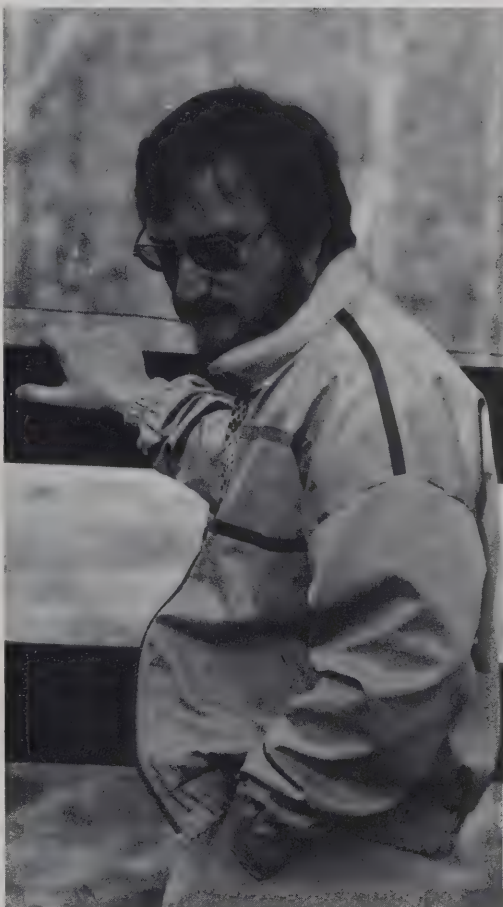

An inner-city clinic in Newport News, migrant farm workers on the Eastern Shore, preschool children in Norfolk — These are some of the unseen “faculty” of EVMS. They help students learn what the practice of medicine can be through programs supported by the Eastern Virginia Area Health Education Centers, AHEC for short. Under the direction of Dr. Edward Haskell, this youngest of the federally-funded AHEC’s in the country has established three satellite centers — Western Tidewater based in Chesapeake and including the Eastern Shore; Peninsula in Newport News and Hampton; and Norfolk. Through these centers and other regional health centers, AHEC offers both rural and inner-city learning experiences with populations of the medically underserved. AHEC’s goal is to help students look beyond the classroom, outside the library, and sometimes into themselves.

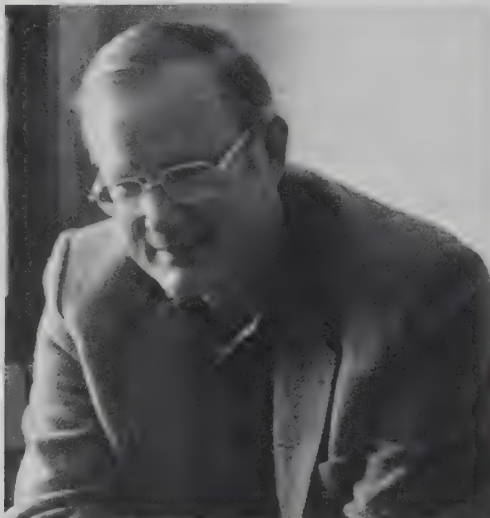

Winter Retreat

"Information Explosion". No one knew what to expect from the small group and plenary sessions typical of all retreats. While the topic applied to all students of medicine, lectures focused on the clinician's role, responsibility, and problems of keeping up with new information being generated in all fields of medicine. Each had to choose a "learning objective" and research that topic. With the sites of Colonial Williamsburg and the grounds of the College of William and Mary nearby, the warm weather drew the participants outdoors for most of the daylight hours. Nighttime featured the "official" parties parties with music provided by a local deejay. In the EVMS tradition, the "unofficial" parties lasted until dawn, followed by a farewell breakfast.

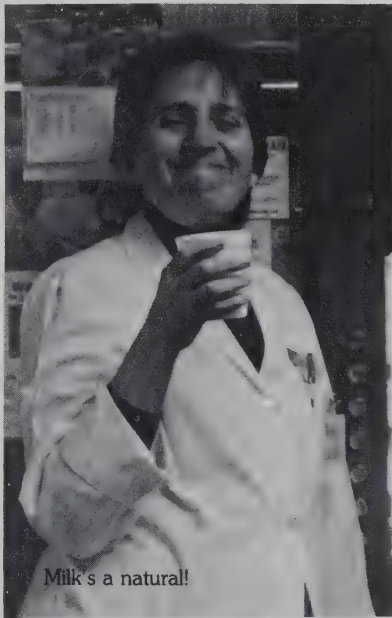

Winter Retreat

P.O.E.T.S.

Milk's a natural!

(Piss On Everything, Tomorrow's Saturday)

Holiday Ball

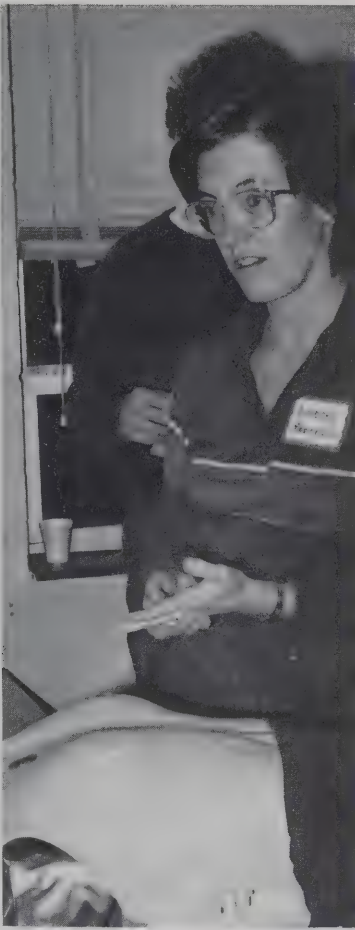

This December, once again, EVMS students, faculty, and staff began the holiday season in high fashion as they attended the Holiday Ball. This year it was celebrated at the Norfolk Elks Lodge and highlighted by a superb band open bar, and hor d'ouvres, in addition to tasty barbeque. It was sponsored by the newly formed "Significant Others Club." They did a fantastic job as usual inspiring a little bit of good cheer in all of us. The highlight of the Ball was Dr. Mayer's dancing. He attributed his style to the influence of the EVMS students. Overall, a good time was had by all even without the mistletoe!

Advanced Cardiac Life Support

Code Red Team — Cardiac Arrest... No pulse, Start CPR!... 1&2&3&4&5... EKG Monitor — V-fib... OK, let's defibrillate at 200 joules... Clear!... No change in rhythm... Recharge defibrillator... Clear!... No change... Continue CPR, start IV and intubate... Let's give epinephrine and bicarb... Defibrillate at 360 joules... We have NSR. A patient in the E.R.? ICU? or on the ward? Not this time. In this case, the patient was a mannikin and the code was simulated. This was part of the Advanced Cardiac Life Support course, an intense two-day course in which we learned about sudden cardiac death, and various resuscitation techniques. Included were dysrhythmia recognition, endotracheal intubation, drug therapy and defibrillation. The course culminated with the "Megacode" — a mock cardiac arrest in which our newly acquired skills were put to the test. Having completed the course, we all felt better prepared for when the real situation occurs.

EVMS Tenth Anniversary

The Tenth Anniversary gave the EVMS community a chance to reflect over past accomplishments as well as project to the future. Scientific programs featuring lecturers from EVMS, as well as Philadelphia, Albany, and Texas Tech, appealed to local physicians on Thursday and Friday. The halls were filled with the Basic Scientist's displays of their research and accomplishments. By Friday evening, the gallery was transformed into a cocktail party with alumni, faculty and students in attendance, and plenty of celebratory champagne for all. In the highlighted groundbreaking ceremony for the new clinical sciences building, Dr. Edmund Pellegrino eloquently delivered the Keynote Address, referring to EVMS as a "youngster entering the teenage years". Mr. Henry Clay Hofheimer II joined Dr. William Mayer afterwards for the official groundbreaking honors on site, symbolizing the beginning of a second decade of continued progress, and success.

EVMS 10TH ANNIVERSARY

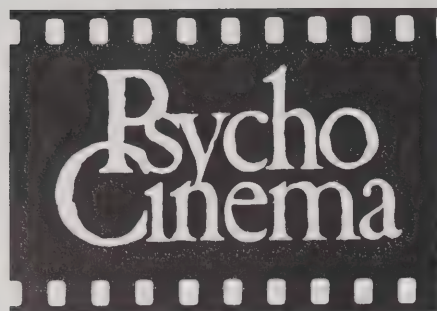

*in Commemoration of the Tenth Anniversary
1973-1983*

Medical School
Out-of
Sight...

THE MIND BEHIND THE MOVIES

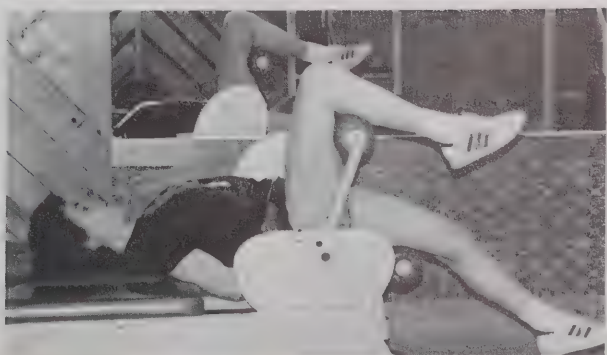

This program is co-sponsored by the Community Mental Health Center and Psychiatric Institute and the Eastern Virginia Medical School Department of Psychiatry and Behavioral Sciences.

Medical School
Out-of-Mind!

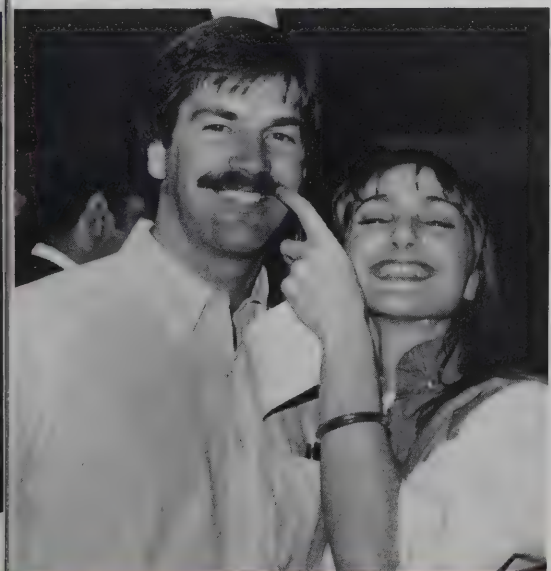

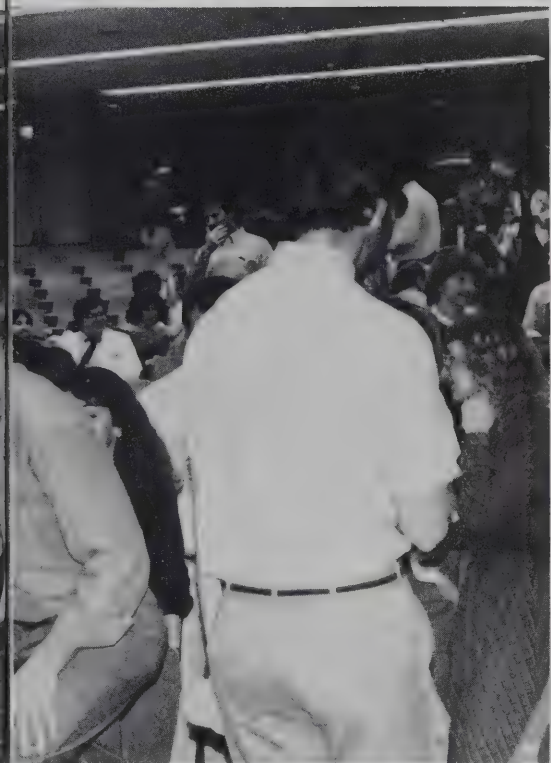

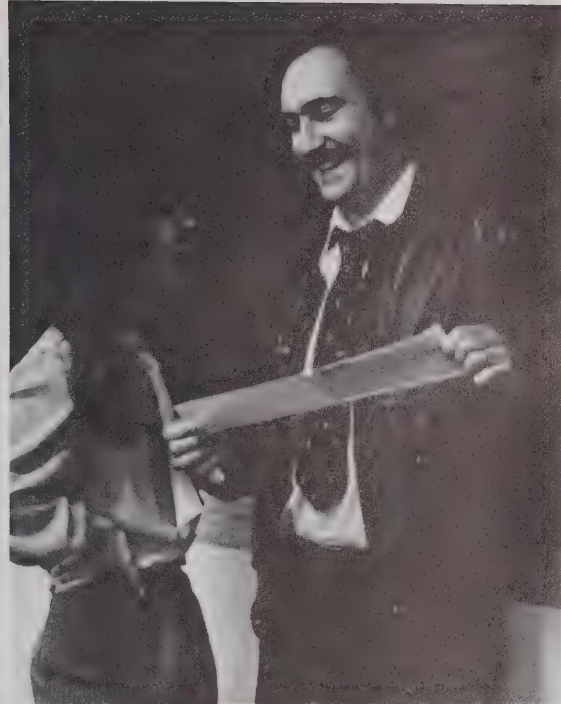

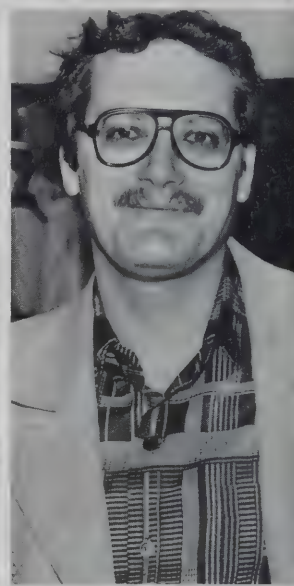

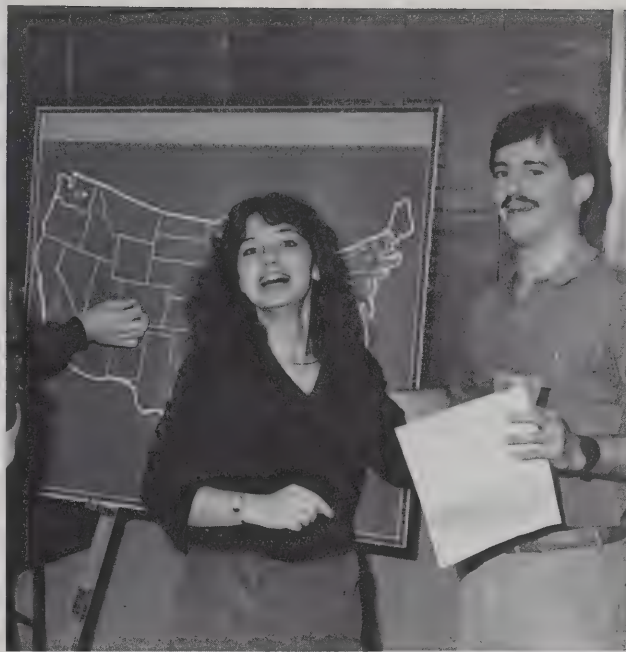

Match Day

According to Dean McCombs, Residency Match Day is a big day in medical students' lives, "third only to birth. The second milestone is acceptance into medical school." This year, more than half were matched with first-choice programs, and 85% were matched with one of the top three choices, but the anxiety of waiting three long months between submitting rank lists and the opening of envelopes on this ominous day mounted steadily. On this 14th day of March, surrounded by newspaper reporters, television cameras, family and friends, each of us could feel the excitement and sense the nervousness. In one one swift motion the letters which spelled out our fate were known, and with the help of the hops from Busch Brewery, the tensions were quickly relieved.

CLASS OF 1984
MARCH 14, 1984

The Results

- Loren Amdursky: Medicine; Eastern Virginia Graduate Medical School, Norfolk, Virginia; to be followed by Psychiatry
- Joe Ascué: Obstetrics and Gynecology; Georgia Baptist Hospital; Atlanta, Georgia
- Debbie Banks: Family Practice; First Colonial Family Practice; Virginia Beach, Virginia
- Phil Beshany: Obstetrics and Gynecology; Portsmouth Naval Hospital; Portsmouth, Virginia
- Mark Bischof: Obstetrics and Gynecology; Orlando Regional Medical Center; Orlando, Florida
- Eric Bourhill: Family Practice; Duke-FAHEC Family Medicine Residency; Fayetteville, North Carolina
- Phyllis Bragg: Emergency Medicine; Allegheny General Hospital; Pittsburgh, Pennsylvania
- Walter Broadnax: General Surgery; Rutgers Medical School at Camden Affiliated Hospitals; Camden, New Jersey
- Odette Campbell: Internal Medicine; Hahnemann University Hospital; Philadelphia, Pennsylvania
- George Chaconas: Family Practice; Roanoke Memorial Hospital; Roanoke, Virginia
- Cliff Connery: General Surgery; University Hospital, SUNY; Stony Brook, New York
- Steve Cowgill: Family Medicine; University of California San Francisco Affiliated Hospitals, Valley Medical Center; Fresno, California
- Greg Degnan: Surgery; Portsmouth Naval Hospital; Portsmouth, Virginia
- Peter Dozier: Pediatrics; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Peter Drew: Pathology; Medical College of Georgia; Augusta, Georgia
- Rick Edwards: Internal Medicine; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Bill Elwood: Surgery; Naval Hospital; Oakland, California
- Ed Fisher: Internal Medicine; Lenox Hill Hospital; New York, New York
- Lisa Framm: Transitional / Ophthalmology; Boston University Affiliated Hospitals, Boston, Massachusetts; Georgetown University Hospital, Washington, D.C.
- Rick Francis: Internal Medicine; Baptist Hospital, University of Tennessee; Nashville, Tennessee
- Laura Gonzalez-Lawless: Internal Medicine; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Mary Graham: School of Public Health, Harvard University (leading to the MPH degree); Boston, Massachusetts; to be followed by Family Medicine
- Rebecca Haley: Internal Medicine; Virginia Mason Hospital; Seattle, Washington
- Randy Hecht: Internal Medicine; Mc Gaw Medical Center, Northwestern University; Chicago, Illinois
- Ned Hemric: General Surgery; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- George Heuser: Internal Medicine; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Terry Hoffman: Pediatrics; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Larry Hornick: Family Practice; Riverside Hospital; Newport News, Virginia
- Mickey Hurst: Transitional; Riverside Hospital; Newport News, Virginia
- Susan Jaffe: Internal Medicine; Nassau Hospital; Mineola, New York
- Barb Joebstl: Medicine / Pediatrics; Albert Einstein Medical Center; Philadelphia, Pennsylvania
- Jon Johnson: Pathology; Baptist Memorial Hospital; Memphis, Tennessee
- Maryann Kaveski: Obstetrics and Gynecology; Charleston Area Medical Center, West Virginia University; Charleston, West Virginia
- Scott Klavans: Surgery; Hospital of University of Pennsylvania; Philadelphia, Pennsylvania
- Pam Kopelove: Obstetrics and Gynecology; Maimonides Medical Center; Brooklyn, New York
- Jay Kuemmerle: General Surgery; Ohio Valley Medical Center, West Virginia University; Wheeling, West Virginia
- Don Lakatos: Internal Medicine; Bowman Gray School of Medicine Affiliated Hospitals; Winston-Salem, North Carolina
- Gennard Lanzara: Anesthesiology; Duke University Medical Center; Durham, North Carolina
- Scott Lind: General Surgery; University of Texas Teaching Hospital; San Antonio, Texas
- Doug Louk: Obstetrics and Gynecology; Hershey Medical Center; Hershey, Pennsylvania
- Jay Lynch: Internal Medicine; University of Florida Medical Center, Shands Hospital; Gainesville, Florida
- Kevin Lynch: Internal Medicine; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Dawn Manjoney: Transitional; St. Vincent's Medical Center; Bridgeport, Connecticut
- Lindsey Marcellin: Internal Medicine; Georgetown University Hospital; Washington, D.C.
- Harlan Mast: Internal Medicine; Hershey Medical Center; Hershey, Pennsylvania
- Trish McAuliffe: Pediatrics; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Jay Melman: Obstetrics and Gynecology; Allentown Affiliated Hospitals; Allentown, Pennsylvania
- John Milas: Internal Medicine; Greenville Memorial Hospital; Greenville, South Carolina
- Michael Miller: travel, study, and research
- J.W. Mink: Pediatrics; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Cynthia Mobley: Obstetrics and Gynecology; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Sarah Moore: Psychiatry; Portsmouth Naval Hospital; Portsmouth, Virginia
- Patti Moulton: Psychiatry; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Gina Murphy: Family Practice; Chippenham Hospital; Richmond, Virginia
- Steve Nafziger: Family Practice; St. Mary-Corwin Hospital; Pueblo, Colorado
- Toby Naidorf: Internal Medicine; Albert Einstein Medical Center; Philadelphia, Pennsylvania
- Chuck Nguyen-Tan: General Surgery; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Ralph Northam: Pediatrics; Brooke Army Medical Center; San Antonio, Texas
- Shari Odell: Internal Medicine; Medical College of Pennsylvania; Philadelphia, Pennsylvania
- Donovan Parkes: Internal Medicine; Robert Packer Hospital; Sayre, Pennsylvania
- John Parkinson: Anesthesiology; Cleveland Clinic Hospital; Cleveland, Ohio
- Steve Patteson: Obstetrics and Gynecology; University of Tennessee Memorial; Knoxville, Tennessee
- Dave Persson: Internal Medicine; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- Rolland Phillips: Medicine; Eastern Virginia Graduate Medical School; Norfolk, Virginia; to be followed by General Surgery
- Susan Pollack: Medicine / Pediatrics; West Virginia University Hospital; Morgantown, West Virginia
- Andy Pollock: Internal Medicine; University of California (Davis) Hospitals; Sacramento, California
- Pam Pyle: Obstetrics and Gynecology; Franklin Square Hospital; Rosedale, Maryland
- Hobie Rawls: General Surgery; Eastern Virginia Graduate Medical School; Norfolk, Virginia
- B.J. Rogers: General Surgery; Eastern Virginia Graduate Medical School; Norfolk, Virginia

1987: Ron Atwood, Jim Holleran, Diane King, Debbie Lowry, John McCabe, Karen Mathews, Jeanne Quarles, Steve Shield.

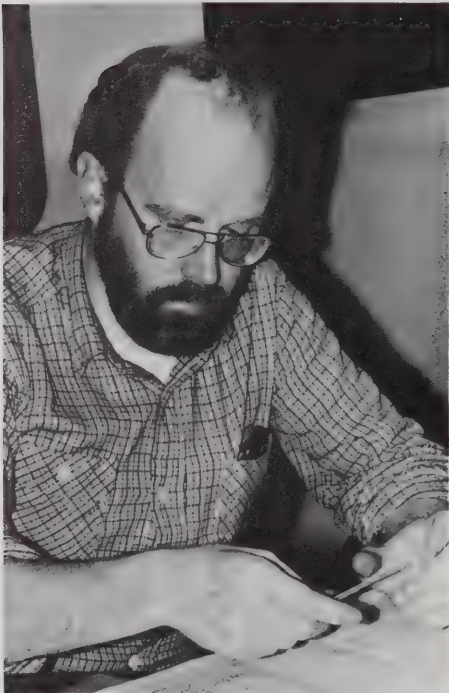

The yearbook staff would like to thank the following individuals who contributed either photos or technical assistance toward the production of this book: Marty Carlo, Paul Haley, Larry Branham, Phillip Lanzafame,

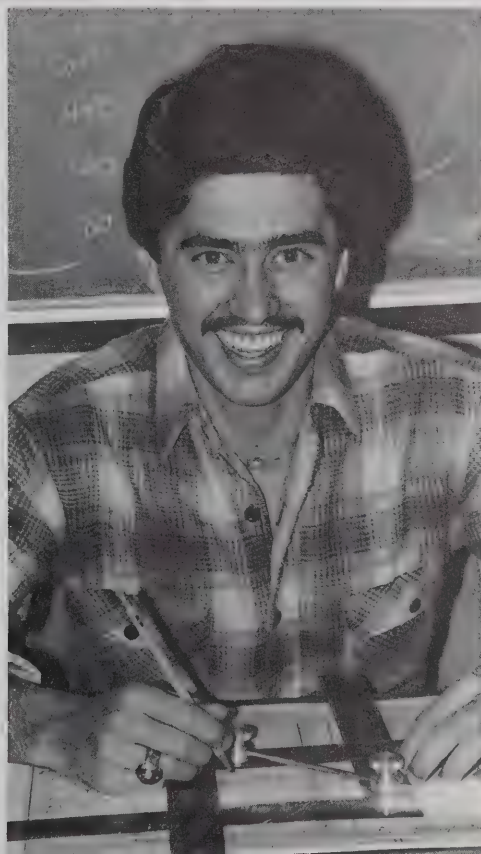

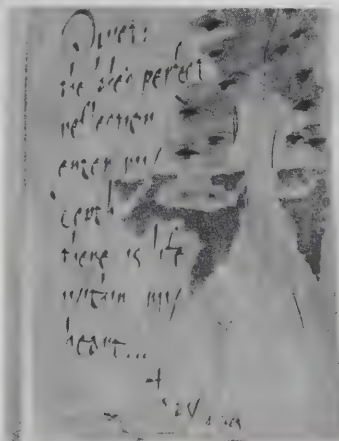

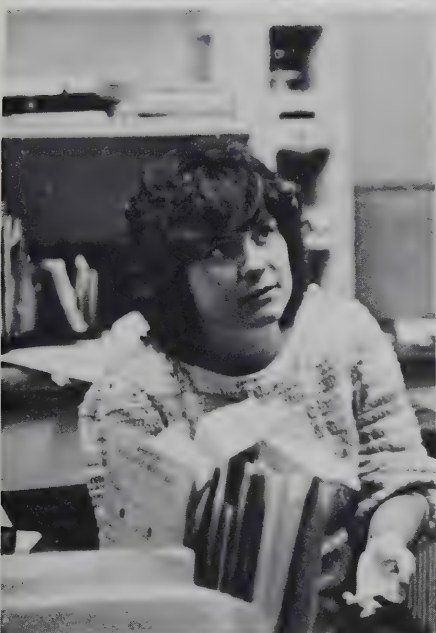

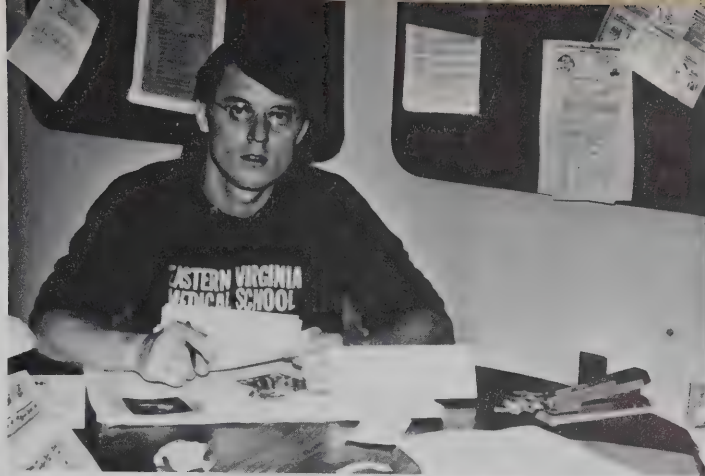

Cynthia Bleakley, Steve Shield, Phyllis Bragg, Gennard & Anne Lanzara, Susan Pollack, Lindsey Marcellin, Mary Brennan, Pam Pyle, Lauri Romanzi, Maryann Kaveski, Steve Cowgill, Loren Amdursky, Carol Kennon, and EVMA Public Affairs Office. Artwork by: Rick Hellman, Ray Millan, and Chuck Nguyen-Tan. Senior Portraits by McIntosh Studios, Norfolk, Virginia. Other student portraits by the Audio-Visual Department, Norfolk General Hospital, Norfolk, Virginia.

Very special thanks to Nancy Dillingham and Dr. Mike Oliver, who got us over the hill.

Many thanks to those who contributed but were overlooked in these credits.

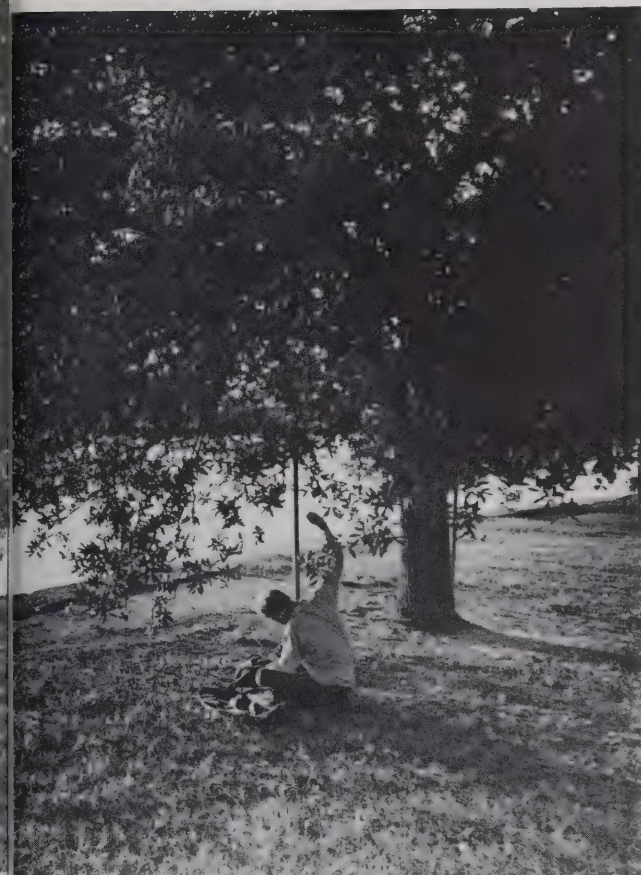

Colophon: Harbour 1984, volume 9 of the EVMS Yearbook was printed by Hunter Publishing Company, Winston-Salem, North Carolina. Copyright 1984 by the Harbour Staff, Eastern Virginia Medical School, Norfolk, Virginia. Publishing Representative: John Perry.

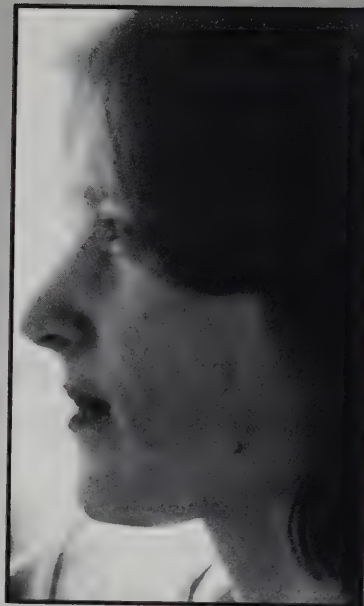

*Good Luck,
Class of '84*

Chromatic

*I take off my white coat —
Emerge from the world of white and black
And shades of gray
To touch the grass
To walk the street like others.
No cloak of reason
Constrains my every step.
I laugh!
The bounce returns to my walk.*

*I try to forget:
The babies crying in the night.
The motorcycle riders
Who never return home,
The rape.
The beaten wife
Off with my white coat.
I, too, wear jeans and sneakers,
And reds and blues,
Walking among the leaves
I see the sun.*

Stacey J. Keen, M.D.
